Overview

ABSTRACT
The SADP is an establishment-based survey, hence it excludes animals slaughtered outside slaughter facility or structure. It covers four (4) major livestock commodities (carabao, cattle, swine and goat), and only broilers for chicken. It is being conducted in all provinces nationwide with data obtained from a complete enumeration of accredited abattoirs and dressing plants as well as LGU-supervised slaughter facilities. The collection of slaughter data from accredited abattoirs and dressing plants is being undertaken in collaboration with the National Meat Inspection Service (NMIS).

KIND OF DATA
Administrative records data [adm]

UNITS OF ANALYSIS
Agricultural holdings

Scope

NOTES
The SADP covers four (4) major livestock commodities i.e., carabao, cattle, swine and goat; and only broiler for chicken. It is being conducted in all provinces including NCR with data obtained from a complete enumeration of accredited abattoirs and dressing plants as well as non-accredited or LGU-supervised slaughter facilities.

Data Processing

Data Editing

The BAS consolidates data coming from the accredited and non-accredited abattoirs and dressing plants. The BAS reviews and verifies by looking at the available time series data. NMIS is being consulted for any abrupt changes from the previous reference quarter and ask for possible reasons for the changes. The PASO supervises the consolidation and review of slaughter data in the province. The BAS Regional Agricultural Statistics Officer (RASO) supervises the consolidation, review, and analysis of slaughter data in all provinces within the region.

The Provincial Processing Officer (PPO) of BAS is responsible in encoding the outputs from accredited and non-accredited abattoirs and dressing plants using Microsoft Excel. The PASO supervises the electronic processing of slaughter data in the province. The Regional Agricultural Statistical Officer (RASO) supervises the electronic data processing of slaughter data of all provinces in the region to come up with the regional estimates.
