1. INTRODUCTION

This document provides information on the Niger Second National Survey on Living Conditions and Agriculture 2014 (*Deuxième Enquête Nationale sur les Conditions de Vie des Ménages et Agriculture - ECVMA*). The ECVMA is the second integrated multi-topic household survey done for the purpose of evaluating poverty and living conditions in Niger under the Living Standards Measurement Study – Integrated Surveys on Agriculture (LSMS-ISA) program. It is a panel survey with the first survey done in 2011. This survey was implemented by the National Institute of Statistics (*Institut National de la Statistique - INS*) with technical and financial assistance from the World Bank.

Niger is part of the Living Standards Measurement Study – Integrated Surveys on Agriculture (LSMS-ISA) program. This program has developed a household level survey with a view to enhancing our knowledge of agriculture in Sub-Saharan Africa, in particular, its role in poverty reduction and the techniques for promoting efficiency and innovation in this sector. To achieve this objective, an innovative model for agricultural data collection in this region will need to be developed and implemented. To this end, activities conducted in the future will be supported by four main pillars – a multisectoral framework, institutional integration, analytical capacity building, and active dissemination.¹

- First, agricultural statistical data collection must be part of an expanded and multisectoral framework that goes beyond the rural area. This will facilitate generation of the data needed to formulate effective agricultural policies throughout Niger and in the broader framework of the rural economy.²
- Second, agricultural statistical data collection must be supported by a well-adapted institutional framework suited to fostering collaboration and the integration of data sources. By supporting a multi-pronged approach to data collection, this project seeks to foster intersectoral collaboration and overcome a number of the current institutional constraints.
- Third, national capacity building needs to be strengthened in order to enhance the reliability of the data produced and strengthen the link between the producers and users of data. This entails having the capacity to analyze data and to produce appropriate public data sets in a timely manner. The lack of analytical expertise in developing countries perpetuates weak demand for statistical data.
- Consequently, the foregoing has a negative impact on the quality and availability of policy-related analyses. Scant dissemination of statistics and available results has compounded this problem.

In all countries where the LSMS-ISA project will be executed, the process envisioned for data collection will be a national household survey, based on models of LSMS surveys to be conducted every three years for a panel³ of households. The sampling method to be adopted should ensure the quality of the data, taking into account the depth/complexity of the questionnaire and panel size, while ensuring that samples are representative.

¹ For more information see the LSMS web site: www.worldbank.org/lms

² We note that agriculture is also important in urban areas and that a number of studies indicate that ties between urban populations and their relatives in rural, farming areas have an impact on their welfare.

³ In some countries the lag between two rounds will be shorter depending on conditions in the country, internal demand for surveys at more frequent intervals, and financing.

The main objectives of the ECVM/A are to:

- Gauge the progress made with achievement of the Millennium Development Goals (MDGs);
- Facilitate the updating of the social indicators used in formulating the policies aimed at improving the living conditions of the population;
- Provide data related to several areas that are important to Niger without conducting specific surveys on individual topics ;
- Provide data on several important areas for Niger that are not necessarily collected in other more specific surveys.

2. CHARACTERISTICS OF THE SURVEY⁴

2.1. BRIEF INTRODUCTION TO THE SURVEY AND THE HOUSEHOLD QUESTIONNAIRES – FIRST VISIT

The ECVM/A involves two visits, which means that each household is visited twice. The first visit takes place during the planting season. The second visit takes place during the harvest season. The household and agriculture/livestock, as well as the community/price questionnaire are administered during the first visit. During the second visit, the household and agriculture/livestock questionnaires are administered in full, but the community questionnaire only collects price information.⁵

The household questionnaire comprises 18 sections, not including the cover page which covers information of a general nature (identity, name of household head) and Section 0 which covers detailed information on household identification and the results of the survey. In the first visit, 16 of the sections were administered.

- Section 1 focuses on the socio-demographic characteristics of household members (gender, age, relations with household head, survival of relations);
- Sections 2 and 3 focus respectively on the education and health of household members;
- Section 4 focuses on the characteristics of the labor market and seeks to determine whether the subject is inactive (retirees, for example), unemployed or employed; and in the case of those in employment, to identify the characteristics of their employment (socio-professional category, seniority, working hours, income etc.);
- Section 5 focuses on non-agricultural enterprises owned either by a household member, or by the household. The enterprises concerned are all enterprises in which a household member is the boss, a partner, or self-employed;
- Sections 6 and 7 focus respectively to the characteristics of the household dwelling (status of occupancy, nature of walls, roof, flooring, number of rooms etc.) and its equipment in terms of durable goods and production tools;
- Section 8 focuses on the income of household members which is not derived from employment (pensions, scholarships, income from rent etc.);
- Section 9 focuses on fund transfers made by the household to other households and remittances received from other households, and social assistance received by the household members;
- Section 10 focuses on negative shocks sustained by the household during the 12 months prior to the interview and the coping strategies adopted in this regard;

⁴ See Annex 1 for complete descriptions of each of the questionnaires.

⁵ The household questionnaire in the second visit is a reduced questionnaire.

- Section 11 focuses on non-food household expenditure items (exclusive of education, health and accommodation which are addressed under the appropriate sections above);
- Section 12 focuses on food consumption (expenditure, auto-consumption, gifts and donations);
- Section 13 focuses on addresses other information on food consumption during the 7 days preceding the survey, with particular reference to food consumption according to food group;
- Section 14 focuses on food security;
- Section 15 looks at the aspirations of individuals from 15 to 25 years of age and the constraints or facilitators to those aspirations; and
- Section 16 looks at psychology and attitudes of individual 15 to 25 years of age.

2.2. DESCRIPTION OF THE SECOND VISIT QUESTIONNAIRE

The second visit household questionnaire is a reduced version of the version used in the first round. It includes information to determine if members who were in the household in the first visit are still in the household and if there are any new members. When there are new members, the questionnaire is used to collect limited basic socio-demographic information.

In addition, information for all households is collected on non-food expenditures of the household (Section 11), food consumption (Section 12), other information on food consumption for the past 7 days, notably the foods consumed by type of food (Section 13), and food security (Section 14).

Two new sections were added to the second visit household questionnaire.

- Section 17 is about the consumption of livestock owned by the household for the Tabaski festival; and
- Section 18 is about children between the ages of 5 and 15 who live outside of the household.

2.3 DESCRIPTION OF THE AGRICULTURE AND LIVESTOCK QUESTIONNAIRE – FIRST VISIT

Like the household questionnaire, the agriculture/livestock questionnaire is divided into sections and sub-sections. In the first visit, which is administered in the post-planting season, three sections were administered:

- Section 1 collects information on the household's access to land;
- Section 2 collects information about inputs, labor, types of crops, and costs for rainy season agriculture; and
- Section 3 collects information on agricultural equipment owned/used by the household.

2.4 DESCRIPTION OF THE AGRICULTURE AND LIVESTOCK QUESTIONNAIRE – SECOND VISIT

The agriculture and livestock questionnaire, second visit, collects information on the harvest and on livestock production in the household. The sections include:

- Section 1 collect's information on the household's access to land;
- Section 2 collects information about inputs, labor, types of crops, costs, and amount of harvest for rainy season agriculture;
- Section 4 collects information on livestock including type of livestock, reproduction, shelter, feeding, water, health, labor, meat production, milk production, egg production, use of animals for transportation and work, production and use of manure, and transhumance; and
- Section 5 collects information on tree culture and perennials, agricultural extension, and

climate change.

2.5 DESCRIPTION OF THE COMMUNITY QUESTIONNAIRE

The community questionnaire has 7 sections. In addition, the cover pages collect general information (identification information, etc.) and section 0 provides the names of the respondents.

- Section 1 collects information relative to the existence and accessibility of social services;
- Section 2 collects information on the economy and infrastructure in the village/neighborhood.
- Section 3 is dedicated to health;
- Section 4 collects the characteristics of agriculture in the village/neighborhood;
- Section 5 looks at livestock and negative shocks which the community has been victim during the last 5 years;
- Section 6 reports community needs for infrastructure; and
- Section 7 collects local prices.

In the second visit, the community questionnaire was used only to collect local prices.

3. SAMPLE AND TRACKING

The ECVMA 2014 is a panel survey with the ECVMA 2011. The ECVMA 2011 was designed to have national coverage, including both urban and rural areas in all the regions of the country. The domains are defined as the entire country, the city of Niamey; and other urban areas, rural areas, and in the rural areas, agricultural zones, agro-pastoral zones and pastoral zones.⁶

All households are identified by three variables – GRAPPE, MENAGE and EXTENSION. GRAPPE is the cluster in which the household is located and MENAGE is the household number within that cluster. The GRAPPE and MENAGE identifiers of the households in 2014 are identical with the grappe and menage identifiers in 2011.

In the ECVMA 2014, all households that had been interviewed in 2011 were tracked. Households that did not move were interviewed in their existing location. Households that had moved to other locations in Niger were followed and interviewed in their new locations if they could be found in the new location. Households that moved outside of Niger were not followed. Households are identified by the GRAPPE and MENAGE identifiers from 2011 even if they moved to a new location.

Individuals who moved from households, for example women who married and moved to their husband's household or men who moved out to form their own household, were also tracked. In the new location, the individual and all members in the new household were supposed to be interviewed. However in the final data set it is difficult to determine among the households of tracked individuals which one was in the original household and which are the new participants in the survey. While the GRAPPE and MENAGE are identical between the 2011 household and the movers from the 2014 survey, the individual identifiers within the household cannot be matched for these households.

Households that did not move are identified as code "0" in the variable EXTENSION. Households that moved as an entire household are identified as code "1" in variable EXTENSION. Households with an individual who moved from an original household and resided in a new household in 2014 are identified as code "2" in variable EXTENSION.

Within households, individuals should have the same identification numbers as they had in 2011. The variable MS01Q00 in the 2014 data contains the individual identification number within the household. In 2011, the variable is ms01q00. The identification numbers for members who left the household

⁶ For more information, look at the Basic Information Document for the ECVMA 2011 survey.

between 2011 and 2014 should not be found in the 2014 data. Their identification numbers should not have been reassigned to any other members. New members who joined the household after the 2011 survey will have identification numbers starting after the highest identification number found in the 2011 data. It is always possible that there were mistakes made in the identification of individuals in the households and the data may not be perfectly matched.

The households that moved maintain the GRAPPE (cluster) and MENAGE (household within the cluster) identification information from 2011 so that they can be matched back to information from the 2011 survey. They may have moved to a different region in the country, but are identified with their original location.

4 PILOT TEST

The training for the pilot test took place from 24-28 March and the field work portion took place from 31 March through 12 April. The pilot test was done in Tillaberry, a region close to Niamey that includes both urban and rural areas.

5 ORGANIZATION OF THE ECVM/A

The ECVM/A was developed by the Survey and Census Division of the National Institute of Statistics, in close coordination with the Statistics Division of the Ministry of Agriculture and Livestock and with the technical assistance of the World Bank.

A Technical Committee was formed to participate in the development of the survey. The Technical Committee included the ministries, international organizations, local NGOs and academic researchers. The major activities of the committee were:

- Create a platform to stimulate inter-institutional collaboration in order to sustain the system through the duration of the program;
- Review the questionnaires;
- Provide expertise where needed.

5.1 ORGANIZATION OF THE FIRST VISIT

The first visit used three questionnaires to collect data. The household questionnaire collected information at the individual level (demographics, education, health, and employment) and information at the household level (housing, durable goods, transfers, shocks, etc.). The agriculture questionnaire collected information about the post-planting period (plots, crops, inputs, labor, etc.). The community questionnaire collected information about characteristics of the community in which the households selected for the survey were found. There is no community data for the households that moved in their entirety. No community questionnaire was administered in the new location.

5.2 TRAINING FOR THE FIRST VISIT

The training for the first visit was held from August 4-31, 2014. The training included classroom sessions, exercises on individual sections, and practice interviews. In addition, as part of the training, the enumerators went to a ZD not included in the sample for the ECVM/A to practice doing interviews in actual households. The training was held in French, but practice sessions were also done in Djerna and Houssa, the two main languages in the country.

5.3 FIRST VISIT DATA COLLECTION

Data collection was organized in teams. A team was composed of a supervisor, three enumerators, and one data entry operator. Each team was accompanied by a driver. Data collection was done between September and November 10, 2014.

5.4 ORGANIZATION OF THE SECOND VISIT

The second visit also used three questionnaires to collect data. These questionnaires were similar to those used in the first passage. Because the households visited in the first round were re-visited, the household questionnaire collected demographic information at the individual level only for those sections that were added. Some information that had been collected at the household level in the first visit - household enterprises, housing characteristics, durable goods, non-wage revenues, transfers and shocks – was not collected again in the second visit. Complete information was collected on non-food expenditures and food consumption. The agriculture questionnaire collected information about the post-harvest period (plots, crops, outputs, labor, etc.) and livestock. While the community questionnaire in its entirety was not administered, the price data collection was done. Again, no community questionnaire was administered for those households that moved in their entirety to a new location outside of the original sample.

5.5 TRAINING FOR THE SECOND VISIT

Training for the second visit was held from December 17, 2014 to January 3, 2015. This training covered the reduced household questionnaire, and the post-harvest agriculture and livestock questionnaire.

5.6 DATA COLLECTION FOR THE SECOND VISIT

As with the first visit, the work to collect the data was done in teams. A team was composed of a supervisor, three enumerators, and one data entry operator. Each team was accompanied by a driver. The data collection period went from January 27, 2015 to March 28, 2015.

6 DATA ENTRY AND ORGANIZATION OF THE DATA

The data entry was done in the field simultaneously with the data collection. Each data collection team included a data entry operator who key entered the data soon after it was collected. The data entry program was designed in CSPro, a data entry package developed by the US Census Bureau. This program allows three types of data checks: (1) range checks; (2) intra-record checks to verify inconsistencies pertinent to the particular module of the questionnaire; and (3) inter-record checks to determine inconsistencies between the different modules of the questionnaire.

7 BASIC COUNTS

The data as distributed represent the best effort to provide complete information. The data were collected and cleaned prior to the construction of the consumption aggregate. Using the same guidelines as were used in 2011, the households that are provided in the data set should have consumption data for both visits. This may not be the case. During the cleaning process, it was found that households had been misidentified which allowed more households to be included in the final consumption aggregate file (see below). The raw data that contains household/item level data that was used to calculate the consumption aggregate has been included in the distribution file.

There are 3,614 households and 26,579 individuals in the data.

8 CONSUMPTION AGGREGATE

The indicator of well-being is a cardinal measure (that is to say a real number) that allows a household to be assigned a certain level of well-being. Generally it is constructed from income or from consumption. In the present case, it is a per capita household consumption aggregate constructed in three stages. First, the consumption aggregate is calculated at the level of the household. Then to take into account the differences in the composition of households, the aggregate is normalized by dividing it by the household size. Finally, a last normalization is done by dividing by a spatial deflator that takes into account the differences in costs of living between urban and rural areas – differences arising from different sources of supply, costs of transport and other transaction costs.

The methodology used to calculate the consumption aggregate with the ECVMA 2014 is identical to the methodology used for the ECVMA 2011. For a description of that methodology, see the Basic Information Document for the ECVMA 2011.

The consumption aggregate includes: (a) food expenditures (including meals eaten outside the home); (b) non-monetary food consumption resulting from consumption of home production, gifts and in-kind payments; and (c) the purchase price of new non-durable goods and services, imputed value of rent for dwellings owned by the household or rented free of charge by a third party, and an estimation of the use value of durable goods. The consumption aggregate takes into account all the specifics of the survey, in particular for the items that can be purchased in both of the two rounds, each of the rounds counts for half.

Poverty Lines

The poverty line that is provided was calculated by the National Statistical Institute.

9 HOW TO USE THE DATA

Variable names have from 7 to 9 characters and are based on a system where the first letter indicates the questionnaire in which the information was collected – “M” for household (ménage) and individual level information, “A” for agriculture information, “C” for community level information. This letter is followed by three characters indicating the section from which the information was drawn. For example, “S04” would indicate employment information in the household questionnaire, or agriculture information in the community questionnaire. This is followed by the question number in the questionnaire, for example “Q07”. If the question has multiple parts, the question number would be represented as “Q03BH” or “Q09A”. So, for example, variable “MS01Q24” is question 24 in the household questionnaire section 1, or “What is [NAME’s] ethnicity?”

Data set names begin with the letters “Section” followed by several letters that briefly describe the contents (see Annex 2). Data collected in the first visit have “P1” at the end of the name and data collected in the second visit are stored in files with “P2” at the end of the name.

To merge data from the household data file, it is necessary to merge on the variables **GRAPPE**, **MENAGE** and **EXTENSION**. Individuals are identified by the variables **GRAPPE**, **MENAGE**, **EXTENSION**, and **MS01Q00**. The agriculture data uses the same identification variables to identify individual households, GRAPPE, MENAGE, EXTENSION. Where individual information is collected, the identification information is the same as found in MS01Q00. So, for example, variable “AS02AQ28A” identifies the identification code number of the 1st household member who worked on the parcel. That identification number is the same as MS01Q00.

The agriculture information collected at the field (champs) and parcel level are identified by **AS01Q01** which is the number of the field, and **AS01Q03** the number of the parcel. A household can have multiple fields and there can be multiple parcels within the field. Even if there is only one parcel within the field, it is necessary to use both variables to uniquely identify each land unit worked by the household.

The community level data collect information that is common to the area in which the selected households are located. It does not represent a community in the sociological sense. The data do not represent communities in Niger. Community data are identified by **GRAPPE** (cluster). They can be merged with the household and agriculture data using that variable. In some cases, one community questionnaire was collected for multiple grappes. This happens most often in urban areas. These grappes were located close to each other and the information from each of the grappes would be the same.

When households moved from their original location to a new location outside of the original sample, no community data were collected for the new locations.

9.1 WEIGHTING FACTORS

In order to produce nationally representative statistics with the data, weights or expansion factors need to be applied. The sample weight (hhweight) is found in the constructed data sets (see Annex 2).

ANNEXES

ANNEX 1: DETAILED DESCRIPTION OF QUESTIONNAIRES

| | | FIRST VISIT | | SECOND VISIT | |
|---|--|--|--|---|----------------|
| HOUSEHOLD QUESTIONNAIRE | | | | | |
| SECTION | CONTENTS | RESPONDENT | | CONTENTS | RESPONDENT |
| 1. Socio-demographic characteristics of household members | Identification of individuals also in the 2011 survey, relationship to household head, date of birth, age, presence of parents in household, location of birth, marital status, identification of spouses, ethnicity | Household head | | Identification of individuals also in the 2011 survey, relationship to household head, date of birth, age (NOT PROVIDED IN THE DISTRIBUTION DATA SET) | Household head |
| 2. Education and access to Information and Communication Technology | Part A. Education - ability to read, write, and do a simple calculation, ever attended school, reason for non-attendance, age at entrance to school, attendance in school in 2012/13 school year, type of school, result of 2012/13 school year, attendance in school in 2013/14, reason for non-attendance, level of instruction, problems encountered at the school, type of school, amounts paid for education, highest level of school for those who attended in the past, year last attended school Part B. Access to ICT - ownership of a mobile phone, use of a mobile phone, use of a computer in the last 12 months, use of internet in last 12 months, frequency of use of internet in last 12 months | Household members 4 and older for the education sub-section < | | | |

| | FIRST VISIT | | SECOND VISIT | |
|---------------|--|--|--------------|--|
| | <p>amount covered by insurance, money provided by friends or family to pay medical costs, other health costs, amount of non-conventional costs, use of a mosquito net, type of mosquito net, breakfast eaten by those less than 15</p> <p>Part B. Reproductive health – birth at least once, pregnancy during last 12 months, pre-natal care, costs of pre-natal care, live birth during last 12 months, health care at birth, costs of birth, principal method of contraception used.</p> <p>Part C. Anthropometrics – weight, height, presence of edema, and vaccinations received</p> <p>Part D. Development and Stimulation – ability to speak, activities to stimulate development that the child participated in during the last 3 days, participation in a pre-school</p> <p>Part E. Nutrition – diarrhea, breastfeeding and foods eaten since yesterday</p> <p>Part F. Consumption of tobacco - use of tobacco products</p> | <p>Female household members, 12 to 49 years old</p> <p>Children 6 to 59 months old</p> <p>Children less than 5 years old</p> <p>Children 0 to 24 months old</p> <p>Household members 15 or older</p> | | |
| 4. Employment | <p>Part A. Current employment status – employment in the last 30 days and 12 months, job search in the last 30 days if not employed, length of time without employment, length of time searching for work, methods used to look for work, method used to meet needs</p> <p>Part B. Principal employment during last 7 days – occupation, industry, category of position, type of employer, number of employees, status of employment, months worked in the last 12 months, average number of hours worked per day, average number of days worked per week, income from work,</p> | <p>Household members 5 and older</p> <p>Household members 5 and older</p> | | |

| | FIRST VISIT | | | SECOND VISIT | |
|--|--|--|--|--------------|--|
| | <p>benefits received, estimated value of benefits, receipt of meals from employment, changes in income during last 12 months, taxes withheld from income, receipt of retirement benefits, receipt of sick leave, receipt of health insurance, receipt of free or subsidized medicines, contract for the employment, presence of a union</p> <p>Part C. Secondary employment during the last 7 days – occupation, industry, category of position, type of employer, months worked in the last 12 months, average number of hours worked per day, average number of days worked per week, income from work, who controls the income received, taxes withheld from income, receipt of bonuses, or commissions for the work, presence of a union, total income from other employment</p> <p>Part D. Principal employment during the last 12 months - occupation, industry, category of position, months worked in the last 12 months, status of employment, average number of hours worked per day, average number of days worked per week, income from work, who controls the income, benefits received, estimated value of benefits, receipt of meals from employment, receipt of retirement benefits, receipt of sick leave, receipt of health insurance, receipt of free or subsidized medicines, contract for the employment, presence of a union</p> <p>Part E. Secondary employment during the last 12 months - occupation, industry, category of position, type of employer, date began the work, length of time doing the work</p> | <p>Household members 5 and older</p> <p>Household members 5 and older</p> <p>Household members 5 and older</p> | | | |

| | FIRST VISIT | | SECOND VISIT | |
|---|---|---|--------------|--|
| 5. Non-agricultural household enterprises | <p>Part A. Existence of enterprise - detailed questions to determine is a household has a non-agricultural household enterprises</p> <p>Part B. Characteristics of household enterprises – principal good or service, ID code of principal respondent, ID code of owner, ID code of manager, date enterprise was formed, number of non-household members working in the enterprise, amount of revenues that go to the household, where the enterprise is located, presence of electricity, presence of running water, presence of a telephone, use of written accounts, does the enterprise have a Fiscal Identification Number, is the enterprise registered in the Commercial Registry, are the workers registered in the CNSS, legal form of the enterprise, expenditures and revenues, number of months in business, identification of household members who work in the enterprise, hours worked for men, women and children</p> | <p>Household head</p> <p>Household head</p> | | |
| 6. Housing characteristics | Type of dwelling, number of rooms, status of occupation, monthly rent, payment of rent (or part) by non-household member, monthly rent including services, payment of monthly bills, principal material of the exterior walls, the roof and floors, connection to SEEN, monthly water bill, other water expenses, principal sources of drinking water in dry season and rainy season, distance to drinking water source in dry season, time to fetch drinking water, distance to drinking water in rainy season, time to fetch water in rainy season, connection to NIGELEC, monthly electricity bill, principal source of lighting, breaks in electric service, number of breaks, average | Household head | | |

| | FIRST VISIT | | | SECOND VISIT | |
|------------------------------------|--|----------------|--|--|----------------|
| | duration of breaks, other expenses for electricity, connection to SONITEL, monthly telephone bill, connection to internet, monthly bill for internet connection, connection to cable or satellite television, monthly bill for cable or satellite television, principal fuels used for cooking, how trash is disposed of, type of sanitation in the dwelling, disposition of waste | | | | |
| 7. Durable goods | Possession of goods, how many, age of the newest, purchase value, current value | Household head | | | |
| 8. Non-employment revenues | Receipt of retirement pension, widow's pension, disability pension, child support, rental income, interest, dividends, identification of household member who receives, amount received | Household head | | | |
| 9. Transfers | Part A. Transfers received – ID code of member who received, relationship to sender, nature of good or service, place of residence of sender, method of transfer, total amount received in last 12 months | Household head | | | |
| | Part B. Transfers sent - ID code of member who sent, relationship to receiver, nature of good or service, place of residence of receiver, method of transfer, total amount sent in last 12 months | Household head | | | |
| | Part C. Assistance and Social Protection - receipt of social assistance during the last 12 months | Household head | | | |
| 10. Shocks and survival strategies | Negative events during the last 12 months, 3 worst problems, changes in welfare because of shock, strategy adopted to respond to shock | Household head | | | |
| 11. Non food expenditures | Part A. Non-food expenditures during the last 7 days – expenditures on common items purchased during a week | Household head | | Part A. Non-food expenditures during the last 7 days – expenditures on common items purchased during a week | Household head |

| | FIRST VISIT | | | SECOND VISIT | |
|---|--|--|--|--|----------------|
| | Part B. Non-food expenditures during the last 30 days – expenditures on items purchased frequently Part C. Expenditures during the last 6 months – expenditures on items purchased infrequently Part D. Expenditures during the last 12 months – expenditures on items that are not purchased very often Part E. Expenditures on ceremonies during the last 12 months – expenditures on religious and personal ceremonies | Household head Household head Household head Household head | | Part B. Non-food expenditures during the last 30 days – expenditures on items purchased frequently | Household head |
| 12. Food consumption during the last 7 days | Consumption of item, quantity consumed that was purchased, quantity consumed that was from home production, total quantity consumed received as give, as in-kind or by barter | Household head | | Consumption of item, quantity consumed that was purchased, quantity consumed that was from home production, total quantity consumed received as give, as in-kind or by barter | Household head |
| 13. Additional food consumption information | Number of days categories of food were eaten, non-household members eating meals with household, number of days, number of meals | Household head | | Number of days categories of food were eaten, non-household members eating meals with household, number of days, number of meals | Household head |
| 14. Food security | Responses to concerns over having enough to eat during the last 7 days, strategies if did not have enough to eat, number of meals for adults and children, months in the last 12 when did not have enough to eat, reasons for not having enough to eat | Household head | | Responses to concerns over having enough to eat during the last 7 days, strategies if did not have enough to eat, number of meals for adults and children, months in the last 12 when did not have enough to eat, reasons for not having enough to eat | Household head |
| 15. Aspirations | Part A. Aspirations – professional aspirations, ideas about good jobs, images of success, financial aspirations, what the person wants to do in the next 3 months | Household members 15 to 25 years old | | | |
| | Part B. Constraints and Facilitators – attitudes of parents, which parent they want to emulate, will they have to leave their village to get good work, do they have access to assistance programs | Household members 15 to 25 years old | | | |

| | FIRST VISIT | | SECOND VISIT | |
|---------------------------------------|---|--------------------------------------|---|----------------|
| 16. Psychology and Attitudes | Part A. Control – how much control they have over their lives, self worth, attitudes towards sexual equality, cohesion | Household members 15 to 25 years old | | |
| 17. Consumption of meat for festivals | | | Whether the household has slaughtered any of its own animals to eat for festivals or holidays | Household head |
| 18. Mobility of Children | | | Information on children living outside of the household | Household head |
| AGRICULTURE QUESTIONNAIRE | | | | |
| 1. Access to land | Does household have access to land, details of each parcel, GPS coordinates of parcel, size of parcel (with GPS, farmer estimation), distance of parcel from dwelling, method of travel to parcel, length of time to go to parcel, how long the parcel has been used by the household, ownership mode, ID code of owner of parcel, type of property title held, method to acquire parcel, estimated value of the parcel, rent that could be received, type of soil, topography, presence of erosion problems, reason for erosion, control of erosion problems, method used to control erosion, principal source of water during the off season, method of drainage used during the off season, second source water during off season, principal source of water during rainy season, was the parcel used during the off season or rainy season, number of consecutive years of use for the parcel, use of soil conserving planting, planting of forage during fallow period, grazing during fallow period, harvest of forage during fallow period, ID code of person in charge of parcel, principal use of parcel during off season and rainy season, last time parcel was left fallow, was the field burned off during the present agricultural season | Household head | GPS coordinates of parcel, size of parcel with GPS, distance of parcel from dwelling, method of travel to parcel, length of time to go to parcel, use of parcel during the rainy season, type of crops grown, was there another planting since the last visit, type of crops grown in second planting, reason for a second planting | Household head |

| | FIRST VISIT | | | SECOND VISIT | |
|-----------------------------|--|----------------|--|---|----------------|
| 2. Rainy season agriculture | Part A. Inputs and labor – was parcel used during rainy season, amount of land used, use of organic fertilizers (how acquired, amount used), use of crop residue on parcel, use of inorganic/chemical fertilizer (amount used), use of pesticides fungicides and herbicides (amount used), identification of household members who worked to prepare the soil, use of gayya or bogou labor to prepare the soil, number of days of gayya or bogou, amount paid for gayya or bogou labor, use of other non-family labor to prepare the soil, number of days for men, women and children, amount paid for non-family labor | Household head | | Part A. Inputs and labor - identification of household members who worked to plant and maintain the parcel, use of gayya or bogou labor who worked to plant and maintain the parcel, number of days of gayya or bogou, amount paid for gayya or bogou labor, use of other non-family labor who worked to plant and maintain the parcel, number of days for men, women and children, amount paid for non-family labor, identification of household members who worked to harvest the parcel, use of gayya or bogou labor who worked to harvest the parcel, number of days of gayya or bogou, amount paid for gayya or bogou labor, use of other non-family labor who worked to harvest the parcel, number of days for men, women and children, amount paid for non-family labor | Household head |
| | Part B. Crops & seeds used in rainy season – type of crops on each parcel, system of cropping, amount of land cultivated, type of seeds used, where seeds were acquired, month when first planted, was there a second planting, number of weeks between plantings | Household head | | | |
| | Part C. Cost of inputs during rainy season – amount of inputs used, where acquired, amount spent for purchases, use of credit to purchase, how long does the credit last, amount of credit, amount already paid back, receipt of inputs as gift, where gift was received | Household head | | | |
| | | | | Part D. Other costs - packaging, fuel and lubricant, water, electricity, insurance premiums, interest expenses, taxes, fees, transport, number of times paid, amount | Household head |

| | FIRST VISIT | | SECOND VISIT | |
|--------------|---|----------------|---|----------------|
| | | | <p>paid on average, how payment was financed (DATA NOT RECEIVED)</p> <p>Part E. Production by crop - type of crop, amount of harvest, loss of production, percentage of loss, principal reason for loss, sale, quantity sold, amount received, who purchased the harvest, where sold, number of times sold, costs of transport and other charges, ID code of member who controls the revenue, transformation of product for sale or household consumption, amount transformed, value of sold transformed product, amount consumed by household, amount given as gifts, amount saved for seeds, amount saved to feed animals, amount currently as stock, principal methods for storing stock, protections measures for stock, principal reason for keeping stocks, amount in stock, how many months will the stock last</p> | Household head |
| 3. Equipment | Possession of equipment, number owned, how much they could be sold for today, age of the newest, price paid at purchase, how many were owned 12 months ago, was the equipment used during the last 12 months, equipment rented to other households during last 12 months, amount received for rentals, household rented equipment from other households or an NGO, amount spend for rentals | Household head | | |
| 4. Livestock | | | <p>Part A. Number and type of livestock – owned or raising of livestock during last 12 months, principal reasons for owning or raising livestock, has household given livestock to another household, how many sent to other household, principal reason</p> | Household head |

| | FIRST VISIT | | SECOND VISIT | |
|--|-------------|--|---|----------------|
| | | | <p>for sending livestock to other household, number owned by household, ID codes of owners of livestock, ID codes of household members who raised the livestock, number of months, days and hours worked, number of animals given to this household by others, what does the household get for raising animals from other households, number from other households, number of animals born during the last 12 months, number of animals given to this household during last 12 months, number of animals given as gifts to this household during last 12 months, number of animals received from the State or and NGO during the last 12 months, number of animals purchased during the last 12 months, where purchased, value of purchases, number of animals slaughtered during last 12 months, number given as gifts to other households during last 12 months, number stolen during last 12 months, number killed by natural disasters during last 12 months, number died of disease during last 12 months, number sold during last 12 months, where sold, amount paid for commissions for sales, amount paid in taxes on sales, net value of the sales, ID code of the principal person who controls the revenue, ID code of the second person who controls the revenue</p> <p>Part B. Reproduction & shelter – use of breeding techniques or reproduction, principal breeding techniques, where were the animals sheltered</p> | Household head |

| | FIRST VISIT | | SECOND VISIT | |
|--|-------------|--|--|---|
| | | | <p>Part C. Feeding – principal foods used to feed the animals during the last 12 months, amount produced by the household, amount purchased, principal source of purchase, number of months purchased, average amount spent, amount of food received as a gift</p> <p>Part D. Water – principal sources of water during the rainy season, average number of times animals were watered during the rainy season, principal sources of water during dry season, average number of times animals were watered during the dry season, payment for watering, number of months paid for watering, average amount spent for watering</p> <p>Part E. Health – number vaccinated during the last 12 months who were already vaccinated, number vaccinated during the last 12 months, who provided the vaccines, what vaccines were used, amount paid for vaccinations, number dewormed during last 12 months, who provided the deworming services, amount paid for deworming, number treated for ticks or other parasites during the last 12 months, who provided the service, amount paid, number with health problems during the last 12 months, use of medical services, who provided the services, amount paid, use of traditional methods to treat illness, who provided the traditional services, effectiveness of the traditional services, amount paid, knowledge of complaints to use for treatments, would</p> | <p>Household head</p> <p>Household head</p> <p>Household head</p> |

| | FIRST VISIT | | SECOND VISIT | |
|--|-------------|--|---|---|
| | | | <p>respondent like traditional methods to be researched to provide better services</p> <p>Part F. Non-family labor –use of non-family labor during the last 12 months, number of months used during the last 12 months, number of men, number of days worked on average, payment per day of work, number of women, number of days worked on average, payment per day of work, number of children, number of days worked on average, payment per day of work</p> <p>Part G. Production of meat – slaughter of animals during last 12 months to produce meat, number of animals slaughtered by month, average weight of animals slaughtered, average amount of meat produced, average amount sold, amount received for sales, where sold product, ID code of member who controls the revenue, amount consumed in the household, amount of meat given to the household that owned the animal, amount given as gifts to other households, amount of other charges for production of meat, production of skins and leather, amount of skins and leather produced, amount of skins and leather sold, amount received for sales, ID code of the member who controls the revenues</p> <p>Part H Production of milk – number of months milk was produced, number of animals used to produce milk, production amounts, use of animals to feed young animals, sales of milk, average amount sold, average amount received for sales, ID code of the member who controls the</p> | <p>Household head</p> <p>Household head</p> <p>Household head</p> |

| | FIRST VISIT | | SECOND VISIT | |
|--|-------------|--|--|---|
| | | | <p>revenue, where milk was sold, home consumption of milk, transformation milk to other products, sale of milk products, ID code of the person who controls the revenue from sale of milk products</p> <p>Part I Production of eggs – number of months eggs were produced, average number of eggs produced, average amount sold, average amount received for sales, ID number of the member who controls the revenue, home consumption of eggs</p> <p>Part J Transport and field work – use of animals for transport during last 12 months, number of animals used for transport, amount earned, use of animals for field work during last 12 months, amount earned, ID code of member who controls the revenue</p> <p>Part K. Manure – use of manure during last 12 months, principal uses of manure, sale of manure, amount earned, ID code of member who controls the revenue</p> <p>Part L. Transhumance – did the household herd move during the dry season, reason for moving, number of people (members or not) who moved, number of people paid for the move, ID codes of members who moved, what month did the household herd move, month when the household herd returned, where did the household herd go, department in Niger of principal residence, distance of the move, number of animals included in the move, number of animals that returned, problems encountered, state of pasturage at destination, state of water</p> | <p>Household head</p> <p>Household head</p> <p>Household head</p> <p>Household head</p> |

| | FIRST VISIT | | SECOND VISIT | |

|---|---|--|--------------|
| COMMUNITY QUESTIONNAIRE | | | |
| 0. List of respondents | Names of respondents, sex, age, function in the community, number of years in the community, level of education | | |
| 1. Existence and accessibility of social services | Does the service exist, how many in the community, if not in the community, how far away, method of transport to distant services, average time to go to the distant service, principal problems with services in the community | | |
| 2. Economy and infrastructure | Three principal economic activities in the community, is life better or worse from 5 years ago, reasons for the change, accessibility of route to community during the rainy season, presence of electricity in community, principal sources of electricity in the community, use of tap water, presence of mobile phones, presence of children 5-17 working in the community, inhabitants who leave the community periodically for work, where do they go, easier or harder to get work now versus 5 years ago For rural communities only – does transportation pass through the village, how far to the nearest transportation, how often does transportation pass through | | |
| 3. Health | Presence of different levels of services, how far away if not in the community, length of time to distant services, three principal illnesses in the community, three principal problems with health services, where do most women have their babies | | |
| 4. Agriculture | Practice of agriculture in the community, number of agricultural cooperatives, names of principal cooperatives, services provided by cooperatives, presence of a tractor, extension service agent in the community, irrigation | | |

| | FIRST VISIT | | SECOND VISIT | |
|-----------------------------------|---|--|--|--|
| | program in the community, number of participants in irrigation program, principal sources of irrigation, availability of year round water, number of seed sellers, possibility of land sales, presence of sharecroppers, amount paid to agricultural workers, gayya/bogou workers in the community, usual month to plant millet, sorghum, rice, cowpeas, onions, peanuts, and tomatoes, usual month to harvest millet, sorghum, rice, cowpeas, onions, peanuts, and tomatoes | | | |
| 5. Livestock and shocks | Practice of raising livestock, where livestock is watered during the rainy season, where livestock is watered during the dry season, sufficient water during the dry season, reasons for insufficient water, households that move to find water, sufficient pasturage during the last 12 months, households that move to find pasturage, livestock market in the community, livestock epidemics during the last 12 months, insect attack on harvests during the last 5 years, serious crop diseases during the last 5 years, comparison of rainfall with previous season, were there sufficient rains this year, serious droughts during the last 5 years, serious floods during the last 5 years, consequences of floods in the area | | | |
| 6. Community infrastructure needs | Infrastructure projects in the community during last 5 years, who proposed the project, discussions of project in community, who participated in the discussions, was the project undertaken, source of resources for project, contributions by members of the community | | | |
| 7. Prices | Market prices for main consumption items | | Market prices for main consumption items | |

ANNEX 4: NOMENCLATURE OF TRADES AND PROFESSIONS

The “nomenclature for trades and professions” concerns Section 4 of the household questionnaire on the employment of household members. It constitutes a guide to the codes which correspond to Questions 4.23 in Section 4B and 4.51 in Section 4C. The nomenclature applies to the profession exercised by the individual, or in other words, to what the person does within the structure by which s/he is employed, which may perhaps be different from that expected from the original training undergone by the individual. For example, the employment of an electronics engineer who teaches electronics in a college is that of lecturing and not electronics engineering.

At least two points must be considered in determining the proper code for a trade or profession:

- It is important to distinguish between level of training and function executed within an enterprise. An electrical technician in an enterprise is the person who discharges this function within the enterprise. It should be noted that s/he may or may not hold the qualifications of an electrical technician;
- Persons apparently practicing the same trade may have different codes. For example, a Chartered Accountant practicing a liberal profession will be classified in group 31 of the nomenclature. Another Chartered Accountant working as an employee in an enterprise would be classified in group 41.

This nomenclature is organized under 8 main headings with codes for 4 different functions. To identify the code for the 4 functions, the survey official must refer to the table below which will help to identify the appropriate group for the trade or profession. After locating the group in question in the detailed nomenclature, s/he can search for the proper code to enter into the questionnaire.

Table 1. Groups in the Nomenclature for Trades and Professions

| Groups (8) | Sub-groups (18) | Nomenclature Page |
|--|--|--------------------------|
| 1. Agriculture, livestock, hunting and fishery | 11. Agriculture 12. Livestock, fishery, hunting | 3 |
| 2. Member of the State Executive and Legislature; Administrative Authorities, Corporate Executive and Management, Clergy | 21. Member of the State Executive & Legislature 22. Other Administrative Authorities 23. Corporate Executive and Management 24. Member of the Clergy | 3 |
| 3. Liberal Intellectual and Scientific Professions | 31. Liberal Intellectual and Scientific Professions | 4 |
| 4. Senior Executive | 41. Senior Company Executive 42. Senior Management Officer, Central and Communal Public Service 43. Senior Management Officers (Public Service & Corporations) | 5 |
| 5. Middle Management and Technical Staff | 51. Corporate Middle Management 52. Middle Management & Technical Officers, Central and Communal Public Service 53. Senior Management & Technical Officers (Public Service & Corporate Administration) | 7 |

| | | |
|--|---|-----------|
| 6. Commercial Worker & Independent Commercial Worker | 61. Commercial worker 62. Independent Commercial Worker 63. Non-commercial worker | 9 |
| 7. Craftsman & Laborer | 71. Industrial Craftsman and Laborer 72. Service Craftsman and Laborer | 11 |
| 8. Armed Forces & Police | 81. Armed Forces & Police | 13 |

- 6302 *Health and Social Affairs Employees*
Waiter or Waitress, Nursing Assistant, Nursing Aid
Travelling Health Worker
Tablet Distributor
Assistant Midwife
Laboratory Assistant
Health Worker; Sanitation Worker
Other junior health and social affairs personnel
- 6303 *Posts, Telecommunications, Equipment and Public Works*
Junior P & T Employees, postman, telephone and telegraph operator
Telecommunications Inspector
Railway man, Train Conductor
Topography Equipment Operator, Rural Engineering Operator
Meteorological Transmission Assistant, Meteorological Assistant
Other functions within this group which are not elsewhere classified
- 6304 *Transport Service Employees*
Bus Ticket Collector etc.
Taxi Driver, Motorbike Driver
Bus and Coach Conductor
Lorry Driver (tanker, trailer)
Agricultural and forestry machinery operator
Construction Machinery Operator
Other drivers/conductors: company driver, personal driver etc.
Motorbike boy
Ferryman, sailor
Other transport services staff
- 6305 *Agriculture, Fisheries, Forestry, Geology and Mines Employees and Agents*
Rural facilitator
Agricultural Officer (Rural Development Agency)
Forestry Official
Technical Officer, Agriculture and Livestock
Veterinary Nurse
Geology and Mines Officer
Other jobs within this group which are not elsewhere classified
- 6306 *Restaurant and Hotel Employees*
Bartender
Hotel Waiter, hostess
Cleaner, Dishwasher
Other jobs within this group which are not elsewhere classified
- 6307 *Restaurant, Cafeteria or Bar Waiters, Servants*
- 6308 *House Help*

Grp.1 Grp.2 Grp.3 Work, Professions and Trades

Houseboy/housemaid, Baby-sitter, Nanny

Cook, Housekeeper

Other household staff, excluding personal driver and security guard

6309 Other Employees

Library Assistant, Archive Assistant

Bodyguard, Security Guard, Night Watchman, Concierge

Leisure Service Employees (PMUC (bookmaking), Lottery, Casino etc.)

Other employment within this group which is not elsewhere classified

7

CRAFTSMEN AND WORKERS

71 INDUSTRY CRAFTSMEN AND WORKERS

7101 Construction and Public Works Craftsman and Workers

Mason, Plasterer, Tiler, Floor Covering Layer

Scaffolding Builder, Carpenter, Ceiling Builder

Plumber, Locksmith, Building Painter

Construction Worker, Handyman, Sealing Worker

Other trades within this group which are not elsewhere classified

7102 Well Borer, Well Sinker

7103 Quarryman, Stone-cutter, Monumental Mason

7104 Glazier

7105 Electrician

7106 Mechanical, Electronic, Cold and Heat Systems Craftsman and Workers

Scrap Merchant, Panel Beater, Blacksmith

Car Body Painter

Auto Mechanic, Garage Mechanic, Machinery Repair Mechanic

Electro-mechanical Engineer, Breakdown Mechanic (radio, television, refrigerator, etc.)

Other trades within this group which are not elsewhere classified

7107 Machine Operator, Cuviste (pot-man)

7108 Blacksmith, Welder

7110 Leather and Textile Craftsman and Worker

Weaver, Thread Spinner, Dyer, Textile Craftsman

Tailor, Embroiderer, Knitter

Cobbler, Leather Craftsman, Shoe Repairer, Tanner

Mattress Maker, Upholsterer

Other crafts within this group which are not elsewhere classified

7111 Wood Craftsmen and Workers

Carpenters, Cabinet Makers, Wood Craftsmen

Basket Maker/Basket Weaver

Other crafts within this group which are not elsewhere classified

Grp.1 Grp.2 Grp.3 Work, Professions and Trades

7112 *Agro-food Craftsmen and Workers*
Pastry Maker, Baker, Doughnut Maker
Toffee, Jam Maker
Delicatessen Keeper, Fishmonger, Butcher
Natural Juice and Milk Product Maker, Ice-maker
Local Brewer (millet beer etc.)
Other trades within this group which are not elsewhere classified

7113 *Craftsmen and Workers in Other Industries*
Potter
Other crafts within this group which are not elsewhere classified

7114 *Miner, Gold and Precious Stones Prospector*

72 SERVICE CRAFTSMEN AND WORKERS

7201 *Telecommunications Services Craftsmen and Workers*
Telephone Booth Operator, Callbox Operator
Cyber Cafe Operator and Monitor
Cable-Operator
Other service in this group which is not elsewhere classified

7202 *Restaurant Services Craftsmen and Workers*
Grilled Fish/Meat/Doughnut Vendor
Cafeteria Manager (bar, local eatery), Cook
Other trade within this group which is not elsewhere classified

7203 *Personal Services Craftsmen and Workers*
Hairdresser Men/Women (including rinsing and tattooing), Barber
Manicurist, Pedicurist, Beauty Care Worker
Laundryman/woman/Itinerant Carwash (windshields)
Shoe shiner
Other trade within this group which is not elsewhere classified

7204 *Cleaning and Sanitation Craftsmen and Workers*
Cleaner/Washer, Garbage Man, Street Sweep
Other work within this group not elsewhere classified

7205 *Craftsmen and Workers in Other Services*
Traditional Medicine man, Healer
Printer, Photographer
Jeweler, Goldsmith
Watch Repairer – Watchmaker
Astrologer, Fortune-teller
Peddler, Errand boy
Oil Extractor
Money-lender
Other trades within this group not elsewhere classified

Grp.1 Grp.2 Grp.3 Work, Professions and Trades

7206 *Reprographer/Photocopier*
7207 *Cart man*
7208 *Miller*
7209 *Cart pusher*
7210 *Motorized Porter*
7211 *Docker*

Solider, Gendarme, Policeman/woman, Firefighter
Other rank and file armed forces and police personnel not elsewhere classified
-

ANNEX 5: NOMENCLATURE FOR BRANCHES OF ACTIVITY

The nomenclature for branches of activity also relates to Section 4 of the household questionnaire on the employment of household members. It is used to determine the code which corresponds to Questions 4.24 under Section 4B and 4.52 under Section 4C. This nomenclature is also used for Section 5B, Question 5.12 in order to identify the branches of activity in which the household enterprises are involved. A branch of activity is defined as the activity in which the structure (public administration, company etc.) which employs the person is engaged, independently of the trade profession of the person under consideration. For example, for a driver who works in a transport company, the appropriate branch of activity is “Transport of persons”. For another driver working for the NIS, the appropriate branch of activity is “Public Administration” which is the activity in which the driver’s employer, the NIS, is engaged.

| Branch of Activity | DESCRIPTION |
|---------------------------|---|
| 01 | SUBSISTENCE AGRICULTURE |
| 011 | Millet and Sorghum Crops |
| 012 | Rice Crop |
| 013 | Other Cereals |
| 014 | Root Crops (yam, taro, cassava, banana-plantain etc.) |
| 015 | Oil-yielding Crops (groundnuts, oil palm etc.) |
| 016 | Fruit and Vegetable Crops |
| 02 | INDUSTRIAL AND EXPORT AGRICULTURE |
| 021 | Cotton Crop |
| 022 | Cocoa, coffee, tea crops |
| 026 | Other industrial and export products |
| 03 | LIVESTOCK AND HUNTING |
| 031 | Cattle Farming |
| 032 | Goat Farming |
| 033 | Sheep Farming |
| 034 | Other Mammals |
| 035 | Poultry |
| 036 | Farming of Other Animals |
| 037 | Rearing of Breeds of Different Types of Animal |
| 038 | Production of Products of Animal Origin and Livestock-allied Activities |
| 039 | Hunting and Trapping |
| 04 | FORESTRY AND FOREST EXPLOITATION |
| 040 | Forestry and Forest Exploitation |
| 05 | FISHING AND FISH FARMING |
| 051 | Maritime and Continental Fishing |
| 052 | Fish Farming |
| 06 | EXTRACTION OF HYDROCARBONS AND ENERGY-PRODUCING PRODUCTS |
| 060 | Extraction of Hydrocarbons (excluding prospection which are classified under 383) and Energy-producing Products |
| 07 | OTHER EXTRACTIVE ACTIVITIES |
| 071 | Extraction of metal minerals |
| 072 | Extraction of non-metallic minerals |

| Branch of Activity | DESCRIPTION |
|---------------------------|--|
| 08 | MEAT AND FISH INDUSTRIES |
| 081 | Production, processing & conservation of meat and raw meat-based products |
| 082 | Processing & conservation of fish and fish products |
| 09 | PROCESSING OF GRAINS AND PRODUCTION OF STARCHY END-PRODUCTS |
| 091 | Production of cereal flour (including dry milling, dry milling of cereals etc.) |
| 092 | Hulling of rice |
| 093 | Manufacture of millet-based products |
| 10 | COCOA, COFFEE, TEA AND SUGAR INDUSTRIES |
| 101 | Shelling of coffee beans and processing of coffee, tea, production of cocoa, chocolate and confectionary |
| 104 | Sugar manufacture |
| 11 | OILS AND ANIMAL FEED INDUSTRIES |
| 111 | Manufacture of unrefined oils |
| 112 | Manufacture of refined oils, margarine and fats |
| 113 | Production of animal feed |
| 12 | MANUFACTURE OF GRAIN-BASED PRODUCTS |
| 121 | Bread, pastry, biscuit-making |
| 122 | Manufacture of food dough |
| 13 | PRODUCTION OF MILK, FRUITS, VEGETABLES AND OTHER FOOD ITEMS |
| 131 | Manufacture of milk products |
| 132 | Processing and conservation of fruits, vegetables and other food items |
| 14 | BEVERAGE INDUSTRY |
| 141 | Brewing of beer and malt |
| 142 | Manufacture of other alcoholic beverages (excluding beer and malt) |
| 143 | Manufacture of non-alcoholic beverages and mineral water |
| 15 | TOBACCO INDUSTRY |
| 151 | Manufacture of tobacco |
| 152 | Manufacture of tobacco-based products |
| 16 | TEXTILE AND CLOTHING INDUSTRIES |
| 161 | Ginning of cotton |
| 162 | Manufacture of textile yarns and threads |
| 163 | Manufacture of fabrics and nets |
| 164 | Other textile industries |
| 165 | Manufacture of articles of clothing (excluding footwear) |
| 17 | LEATHER AND FOOTWEAR INDUSTRIES |
| 171 | Production of leather and leather articles |
| 172 | Manufacture of footwear, including rubber and plastic footwear |
| 18 | WOOD INDUSTRIES EXCLUDING FURNITURE MANUFACTURE |
| 181 | Sawing and treatment of wood: drying, impregnation, chemical treatment |
| 182 | Manufacture of sheets of veneer, plywood and panels |
| 183 | Manufacture of knockdown wood products |
| 19 | MANUFACTURE OF PAPER AND PAPER ARTICLES, PRINTING AND EDITING |
| 191 | Manufacture of pulp paper, paper, cardboard and paper items |
| 192 | Printing and printing-related activities, editing |

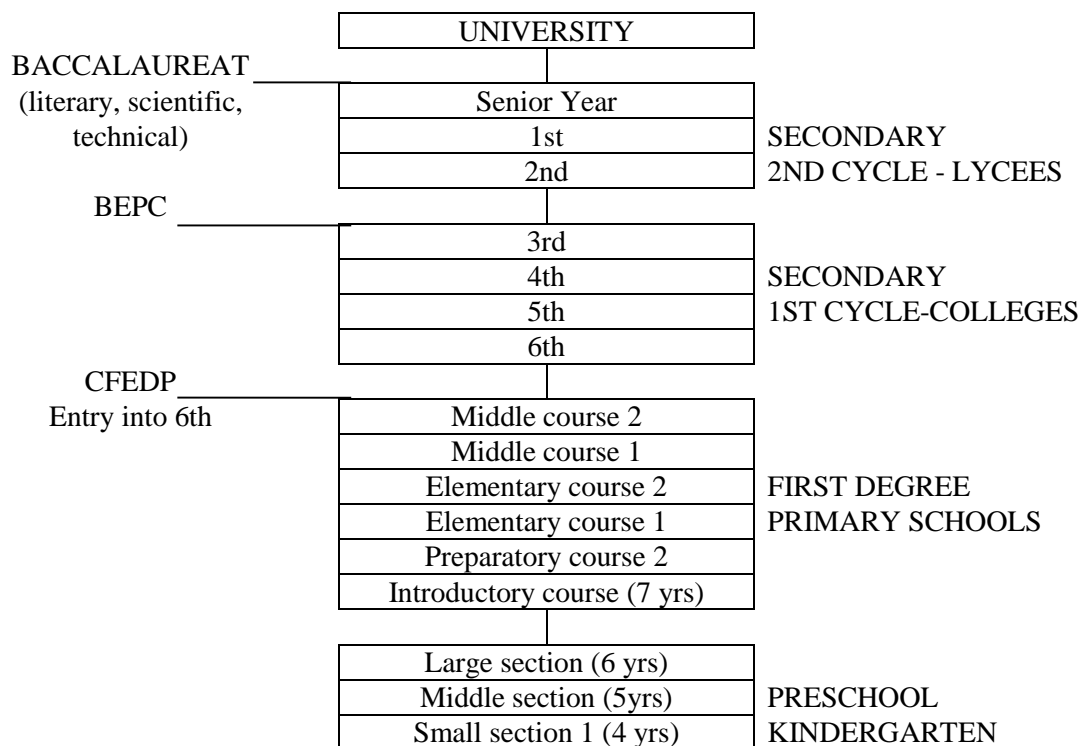

| Branch of Activity | DESCRIPTION |
|---------------------------|--|
| 20 | PETROLEUM REFINERY, COKING AND PROCESSING OF OTHER ENERGY-PRODUCING PRODUCTS |
| 200 | Petroleum refining: coking and nuclear industry |
| 21 | CHEMICAL AND CHEMICAL PRODUCT MANUFACTURING INDUSTRIES |
| 211 | Manufacture of base chemicals |
| 212 | Manufacture of soap, perfumes, detergents and cleaning products |
| 213 | Manufacture of other chemical products |
| 22 | PRODUCTION OF RUBBER AND MANUFACTURE OF RUBBER AND PLASTIC ARTICLES |
| 221 | Rubber production |
| 222 | Manufacture of rubber articles |
| 223 | Manufacture of plastic articles (excluding footwear) |
| 23 | MANUFACTURE OF OTHER NON-METALLIC MINERAL CONSTRUCTION MATERIALS |
| 231 | Manufacture of cement |
| 232 | Manufacture of other non-metallic products |
| 24 | MANUFACTURE OF BASE METALLURGICAL PRODUCTS AND METAL STRUCTURES (EXCLUDING MACHINERY AND EQUIPMENT) |
| 240 | Manufacture of metallurgical products and metal structures |
| 25 | MANUFACTURE OF MACHINERY, ELECTRICAL APPLIANCES AND N.C.A MATERIALS |
| 250 | Manufacture of machinery, electrical appliances and n.c.a. materials |
| 26 | MANUFACTURE OF AUDIOVISUAL AND COMMUNICATIONS EQUIPMENT AND APPLIANCES, MANUFACTURE OF MEDICAL, OPTICAL AND CLOCK-MAKING INSTRUMENTS |
| 260 | Manufacture of audiovisual and communications equipment and appliances, manufacture of medical, optical and clock-making instruments |
| 27 | FABRICATION DE MATERIEL DE TRANSPORT |
| 271 | Manufacture of road vehicles |
| 272 | Manufacture of other transport materials |
| 28 | FURNITURE MANUFACTURE; MANUFACTURING ACTIVITIES NOT ELSEWHERE CLASSIFIED AND REHABILITATION |
| 281 | Furniture manufacture |
| 282 | Miscellaneous manufacturing and rehabilitation activities |
| 29 | POWER, GAS AND WATER GENERATION AND DISTRIBUTION |
| 291 | Electrical Power Generation, Collection, Transportation and Distribution |
| 292 | Water Capture, Treatment and Distribution |
| 30 | CONSTRUCTION |
| 301 | Site preparation and civil engineering and building works construction |
| 302 | Fitting and finishing works |
| 31 | WHOLESALE AND RETAIL SALES |
| 311 | Vehicle Sales |
| 312 | Motorcycle Sales |
| 313 | Sales of accessories and fuel |
| 314 | Wholesale trade in unprocessed agricultural products and live animals |

| Branch of Activity | DESCRIPTION |
|---------------------------|--|
| 315 | Other wholesale trade (including middlemanship in wholesale trade) |
| 316 | General retail trading (food store, shop, grocery store ...) |
| 317 | Retail fruit and vegetable sales |
| 318 | Retail trading of other food products |
| 319 | Retail trading in clothing, footwear and fabrics (including second-hand clothing) |
| 310 | Retail trade in other products (including middlemanship in retailing) |
| 32 | REPAIR WORK |
| 321 | Vehicle repairs |
| 322 | Other repair work on personal items |
| 33 | RESTAURANTS AND HOTELS |
| 331 | Hotels and camping sites |
| 332 | Restaurants and bars |
| 34 | TRANSPORT, WAREHOUSING AND COMMUNICATION |
| 341 | Rail Transport |
| 342 | Transport by taxi/motorbike |
| 343 | Other forms of passenger road transport |
| 344 | Road transport of goods |
| 345 | Other means of transportation (air, water) |
| 346 | Allied and auxiliary transport activities |
| 35 | POSTS AND TELECOMMUNICATIONS |
| 350 | Posts and Telecommunications |
| 36 | FINANCIAL ACTIVITIES |
| 361 | Monetary and Financial Intermediation |
| 362 | Insurance (excluding social security) |
| 37 | REAL ESTATE TRANSACTIONS |
| 371 | Leasing of accommodation and other real estate |
