## Overview

### Identification

---

#### ID NUMBER

PAK\_2014\_FDSH\_v01\_EN\_M\_v01\_A\_OCS

### Overview

---

#### ABSTRACT

In order to elucidate the financial lives of smallholder households and build the evidence base on this important client group, Consultative Group to Assist the Poor (CGAP) of the World Bank launched the year-long Financial Diaries with Smallholder Families (the "Smallholder Diaries"). The study captured the financial and in-kind transactions of 270 households in Tanzania, Pakistan and Mozambique, of which 94 households are in the Punjab province, the breadbasket of Pakistan.

#### KIND OF DATA

Event/transaction data [evn]

#### UNITS OF ANALYSIS

Households

### Scope

---

#### NOTES

##### DEMOGRAPHICS FILE:

- Gender
- Age
- Marital status
- School enrolment
- Highest level of education
- Native language
- Whether they can read/ write

##### CASH FLOWS FILE:

- Acquisition/ loss/sale of physical assets
- Crop tracker (weddings, births, etc.)
- Crop tracker ( harvests, sale, consumption, and loss of each crop)
- Financial inflows and outflows
- Equalisation modules:
  - Risk
  - Aspirations

- Agriculture
- Financial tools
- Labour decisions

## TOPICS

Topic	Vocabulary	URI
Financial Sector	FAO	
Access to Finance	FAO	
Payment Systems	FAO	
Agriculture & Rural Development	FAO	
Food (production, crisis)	FAO	
Labor Markets	FAO	

## Coverage

---

## GEOGRAPHIC COVERAGE

Village level

## Producers and Sponsors

## Metadata Production

---

## METADATA PRODUCED BY

Name	Abbreviation	Affiliation	Role
Office of Chief Statistician	OCS	Food and Agriculture Organization	Adoption of metadata for FAM
Development Data Group	DECDG	The World Bank	Documentation of the DDI

## DDI DOCUMENT VERSION

PAK\_2014\_FDSH\_v01\_EN\_M\_v01\_A\_OCS\_v01

## DDI DOCUMENT ID

DDI\_PAK\_2014\_FDSH\_v01\_EN\_M\_v01\_A\_OCS\_FAO

## Sampling

### Sampling Procedure

---

The methodology and sample size of the Smallholder Diaries was designed to generate a rich pool of detailed information and insights on a targeted population. The Smallholder Diaries are not intended to be statistically representative of smallholder families in participating countries. Total number of households in sample from Pakistan was 94. The sample came was drawn from 2 villages in Pakistan. Villages were selected based on their involvement in agriculture, and convenience in reaching them. The research teams used a screening process to help identify a range of families with 5 acres of land or less, diverse income sources, access to agricultural inputs, wealth levels, and crops to participate in the research. In Pakistan, the sample was selected using a traditional screener survey with questions related to household demographics, crops and livestock, main income sources, and wealth indicators, administered to all households in the selected villages. As a supplement to this process, village leaders and community representatives were consulted to help ensure local participation and eliminate households with large landholdings, harvests per year, use of inputs, and integration with local markets and a variety of families were chosen.

### Response Rate

---

Approximately 95 percent

## Questionnaires

No content available

## Data Collection

### Data Collection Dates

---

<b>Start</b>	<b>End</b>	<b>Cycle</b>
2014-06	2015-06	N/A

### Data Collection Mode

---

Computer Assisted Personal Interview [capi]

## Data Processing

### Data Editing

---

All data editing was done manually. The data was collected through face to face interviews, using a computer tablet preloaded with the data collection software and all previously recorded data. The tablets were synchronized each day so that all collected data was uploaded to the server and the tablet would receive the latest version of the database.
