SECTION 9. PRICES

*) ATTENTION !

When administering this section of the questionnaire, you need to pay particular attention to the food items in bold and use the measuring units indicated in the table.

Please read the weight of product on the package. For example, if khleb (square loaf) weighs 600 grams, you need to proportionally recalculate the price to indicate it per 1 kilogram in the table. Or, if juice is sold in a 3 liter jar, write in the price for 1 liter, etc.

When filling in item 58 "Eggs" note that the price should be indicated for 1 egg.

In case you have not been able to locate all three kinds of observation sites try to survey any other available sites. In this case you need to write in name of the cite you are surveying in it's relevant column.
