Preface

The 2009/2010 Agricultural Census was undertaken by the Ministry of Finance and Development Planning (MoFDP) through the department of the Bureau of Statistics (BOS). This census covers the whole Agricultural Year which runs from the 1st of August to 31st July of the subsequent year. The country has been conducting decennial Agricultural Censuses since 1949 and the annual Agricultural Production Surveys (APS) since 1973 for agricultural variables that are subject to frequent and seasonal changes.

The 2009/2010 Agricultural Census Community Level data (Community Profile) was another module in the 2009/2010 Agricultural Census and the first to be collected by the BOS. The main aim of including this module was to complement the holding-level data by collecting information that could not be collected at household level. Community Level data provides a variety of information on topics like availability of basic facilities such as health and education. It also covers availability of roads, water and electricity and transport among others and peace and order in communities. This information is important as it can be used for monitoring and evaluating government development programs within frameworks such as the Vision 2020, Millennium Development Goals (MDG's) and Poverty Reduction Strategy (PRS).

The BOS wishes to express its gratitude to the Government of Lesotho for its financial assistance and Food and Agricultural Organization (FAO) which provided technical assistance to the success of the census. The dedication of all who participated in various census activities, both from the BOS and other line ministries is highly appreciated including Agricultural Census Advisory Team, Data Collectors, Supervisors, Data Processors, Data Analysts, and Drivers.

Finally, the BOS wishes to express appreciation to the Farming Households and community leaders for their willingness and cooperation throughout the census period.

L. M. Lefosa

Director, Bureau of Statistics

November, 2012

General Information

Introduction

Lesotho conducts the Agricultural Census (AC) as part of all-World programme organized under the auspices of the Food and Agricultural Organization (FAO) of the United Nations every tenth year.

The undertaking of Agricultural Censuses in the country started as early as 1949/1950 followed by the 1959/1960 agricultural years and both were conducted by Ministry of Agriculture. The Bureau of Statistics (BOS) was established in 1965 and conducted the third Agricultural Census in 1969/1970 and other subsequent decennial censuses including that of 2009/2010. The 2009/2010 Agricultural Census followed the modular approach. The core module (Listing) was conducted at the complete count with the aim of providing the sample frame for the Supplementary module (Sample Agricultural Census). Data collection for the core module was collected concurrently with Community – Level data (Community Profile). However, the community-level data covered agriculture-related data not able to be collected from holdings.

Objectives

Data collected from the Community profile was of interest in an Agricultural Census, especially for decentralized planning, identification of poor villages, planning of targeted area development programmes, constructing sampling frames, and targeting communities for relief operations in case of natural disasters. A community-level data collection, often at the village or the commune level was useful for examining the infrastructure and services available to holdings. Data on whether the community was prone to natural disasters or subject to seasonal food shortages, which was collected from community profile, was also imperative for food security analysis.

In addition, the main purpose of community profile was to provide data on factors that help to monitor some of the Millennium Development Goals (MDGs) such as Goal number 3: **Achieve universal primary education**. When the Agricultural Census provided data related to enrolment ratios in primary education (MDG indicator 6), community profile provided factors contributing to low school enrolment such as time taken to school.

Another objective of community profile was to provide information that could be used on **Poverty Monitoring Analysis**. Most of the poor live in rural areas, often in isolated conditions, where they face the problems of poor natural resources, underdeveloped infrastructure, lack of access to markets, fluctuating commodity prices, lack of employment opportunities, and natural disasters. **FAO statistical development series 11 (a system of integrated agricultural censuses and surveys), Volume 1.**

Methodology

Community-level data was conducted on a complete count. All villages in ten administrative districts in the country were covered. Village chiefs, headmen or councilors responded on behalf of their villages. The following topics were covered;

Facility

The section is based on the four facilities namely; Education, Health, Service and Agriculture facilities. All these facilities have sub-categories. Education facilities comprises; Day Care Centers, Pre-Schools, Primary Schools, High Schools, Vocational Schools and Colleges. Health facilities comprises; Private Medical Clinics, Hospitals, Health Centers, Family Planning Centers, Health Posts and Chemists or Pharmacies. Service facilities includes; Post Offices, Police Stations, Banks, Shops, Business Centers, Public Phones, Hotels or Lodges or B&Bs, Mortuaries and Churches. Agricultural facilities consists of; Fertilizer, Pesticides and Seed Dealers, Veterinary Services, Agricultural Processing Facilities, Periodic or Permanent Agricultural Produce Market, Wool Sheds and Sheep Studs. The facilities are analyzed in terms of Time Taken to reach the nearest facilities from the village centers. They are also analyzed on the basis of Means of Transport to the facilities and the presence of either of the facilities in villages. Time Taken has four different time intervals. The time intervals are given as; 0-29, 30-59, 60-119 and 120+. The different Means of Transport are walking, Taxi (Car), Bus/ Minibus and Horse. The number of villages with and without any of the facilities is given.

Village Information

This section covers various topics on village information on the community profile of Lesotho. These include presence and types of: Public Transport ,Roads, Financial Institution, Source of Employment and Other Agriculture Service Facilities. Availability of Water and Electricity supply was also discussed. , time taken to reach the nearest and conditions of these facilities were also measured. , This section further deals with how people in villages acquire their land, that is, their form of land tenure. The forms of land tenure discussed here are inheritance, "Form C", lease and tittle deed. The most common types of natural disasters that communities are prone to are also covered. These natural disasters are drought, floods, strong winds, hail, frost, pest, animal diseases and other disasters that may be known to some other villages.

Peace and Order

The 2009/2010 Agricultural Census Community Level questionnaire covered peace and order section. This section dealt specifically with different crimes categorized as crimes against persons, crimes against property and other crimes. Crimes against persons occurs when someone harms, attempts to harm, threatens to harm or even conspires to harm someone else. These are offenses which involve force or threat of force, such as rape and murder. A property crime is committed when someone damages, destroys or steals someone else's property, such as stealing a car or

vandalizing a building. Property crimes were by far the most commonly committed crimes in this section of community level data. Other crimes in this section include substance abuse, human trafficking, illegal recruitment, spousal/partner abuse to mention but a few. It should be noted in this category that other crimes were not included but rather had to be specified. These were found to be crimes such as illegal firearms and illegally grazing on a reserved or protected area. .

Village Programs

This part covers programs that were implemented in the villages in the past 12 months, namely demonstration garden, environment, health related, improved agricultural techniques, improved varieties/new crops, infrastructure, livestock improvement, poultry and birds, school/classroom construction, sensitization, water provision, other school related and others. It further shows the extent to which each implemented program addressed the needs of the people. It also shows the number of villages per community council that implemented these programs and those that did not implement.

STAFF AND RESPONDENT DETAILS

Name of Enumerator _____

Name of Respondent _____ (Chief/Headman/Councilor)

Date of Interview

Name of Supervisor _____

Date of Inspection

Proximity of village to Basic Services and Service Institutions						
Facility	A	B	C	D	E	F
	Q1. Is the facility present in this village 1- Yes 2-No (go to Q3)	Q2. How many facilities are present in this village	Q3. Name of Nearest Facility	Q4. Distance from village center to the nearest facility 0 - 1 = 1 1 - 2 = 2 2 - 3 = 3 3 - 4 = 4 4 - 5 = 5 More than 5 = 6 (in km)	Q5. Time taken to reach the nearest facility from village center (in Min) 00 – 14 = 1 15 – 29 = 2 30 – 44 = 3 45 – 49 = 4 50 – 59 = 5 60 – 119 = 6 120+ = 7	Q6. means of transport to the facility 1. Walking 2. Taxi (car) 3. Bus / Minibus 4. Horse 5. Other specify
Education Facility						
a. Day Care Centers						
b. Pre-School						
c. Primary School						
d. High School						
e. Vocational						
f. College/University						
g. Others, Specify						
Health Facility						
a. Private Medical Clinic						
b. Hospitals						
c. Health Centers						
d. Family Planning Centers						
e. Health Posts						
f. Chemist/ Pharmacy						
g. Others, Specify						

Service Facility	A	B	C	D	E	F
a. Post Office						
b. Police Station						
c. Bank						
d. Shop						
e. Business Center						
f. Public Phone						
g. Hotels/Lodges/B&B						
h. Mortuary						
i. Church						
j. Others, Specify						
Agriculture Facility						
a. Fertilizer Dealer						
b. Pesticides Dealer						
c. Seed Dealer						
d. Veterinary Services						
e. Agric Processing Facilities						
f. Periodic or Permanent Agric Produce Market						
g. Wool shed						
h. Sheep Stud						

Public Transport			
Q7. What are the types of public transportation present in this village?			1-Yes
			2-No
	1. Bus.....		
	2. Taxi.....		
	3. Cab.....		
4. Van.....			
5. Others			
Specify.....			
Road Network			
Q8. Are any of the following roads present in this village	1-Yes	Q9. What is the present condition of the roads?	Codes
	2-No		
	1. Tarred Road.....		
	2. Gravel.....		
3. Natural/Earth Surface.....			
Q9. Roads Conditions Codes			
1. Good			
2. Fair			
3. Poor			
<i>(For those coded 2 for both tarred and gravel roads in ques. 8)</i>			
Q10. If there are no tarred/gravel roads, how long does it take from this village to the nearest tarred/gravel roads?	(in min.).....		
Q11. If there are no tarred/gravel roads & natural/earth surface, how long does it take from this village to the nearest tarred/gravel & natural/earth surface roads?	(in min.).....		
Q12. If there is community water supply in this village, which company or department supplies water supply facilities listed below <i>(type NONE if the service is no there)</i>	Name of supplier		
1. Piped water community supply.....			
2. Public borehole.....			
3. Public Well.....			

Q13. Are there village water committees established in this village	1-Yes 2-No		If yes, state the number.....					
Electricity Service								
Q14. Is there electricity supply in this village?					1-Yes 2-No			
Groups or Cooperative societies and Credit Institutions								
Q15. Are there any credit institutions/Groups or Cooperative societies in this village.....					1-Yes 2-No			
<i>(if NO go to Next Q 17.)</i>								
Q16. What is the name(s) of the credit institution/Groups or Cooperative societies?	A	Name of Credit Institution		B	Name of Non Credit Institution			
	1.			1.				
	2.			2.				
	3.			3.				
	4.			4.				
Peace and Order								
Q17. Does the village have reported cases on the following crimes in the past 12 months?		How many were the victims of the reported cases?						
		Total	Males		Females			
			Total	0-17 years old	18 years old & above	Total	0-17 years old	18 years old & above
Crimes against persons	1-Yes 2-No							
a. Murder								
b. Physical injury								
c. Rape								
Crimes against property								
a. Theft								
b. Robbery								
Other Crimes								
a. Substance abuse								
b. Human trafficking								
c. Illegal recruitment								
d. Prostitution								
e. Spousal/partner abuse								
f. Sexual harassment								
g. Economic abuse								
h. Other crimes, specify								

Source of Employment					
Q18. What is the source of employment in this village? (a)..... (b)..... (c).....					CODES for office use
Land Tenure					
Q19. What is the most common form of land tenure for people living in this village? 1. Inheritance 2. Form C 3. Leased 4. Title Deed					Code
Village Programs and Services					
Sr. No.	Item	Q20. Was any of the listed projects implemented in the community in the past 12 months?	1-Yes 2-No	Q21. Did the project address the needs of the community?	1-Yes 2-No
1.	Water provision				
2.	Infrastructure (roads, markets, bridges				
5.	School/classroom construction				
7.	Other school related				
8.	Health related (e.g. Vaccination)				
9.	Sensitization				
10.	Demonstration garden				
11.	Livestock improvement				
12.	Poultry and birds				
14.	Improved varieties/new crops				
15.	Improved Agricultural techniques				
16.	Environmental				
17.	Other (specify)				
18.	Other (specify)
