

# Questionnaire for Survey of Agriculture and Forestry Management Entities

2010 World Census of Agriculture and Forestry  
As of February 1, 2010

This survey form will not be used for any purpose other than compiling statistics, so please fill it in fully and truthfully.

Municipality	Former Municipality	Rural Community	Survey Unit	Ref. No.

Name of manager or representative of agricultural / forestry management entity

Address

Telephone Number

Name of Municipality

## [1] Overview of Management Entity

1. Is the farm or forest managed by a family? Draw a circle in the box corresponding to the best answer.

	101
Managed by a family	1
Not managed by a family	2

**Note:** Select "Managed by a family" even if the farm or forest is managed by a family consisting of one person, or if only one person in a family is responsible for the management.

The following question is only for those who answered "Managed by a family" in Question [1] 1.

2. Are livestock deposit operations being managed through the cultivation of pastures? Draw a circle in the box corresponding to the best answer.

	724
Being managed	1
Not being managed	2

**Note:** This refers to cases in which deposit fees are accepted to let horses and cows graze on a pasture either all year, or just in the summer with management generally handled by local public organizations, agricultural cooperatives and others.

3. Are pastures jointly cultivated, cut and used for grazing? Draw a circle in the box corresponding to the best answer.

	725
Yes	1
No	2

**Note:** Answer "Yes" when a community or several farm houses jointly cultivate, cut and use the pastures for grazing without dividing up the land for each household.

4. Is management performed by a company or other corporate institution? Draw a circle in the box corresponding to the best answer.

		102
Incorporation	Not an incorporation	01
	Agricultural producers' cooperative corporation	02
	Incorporated company	03
	Unlimited and limited partnerships	04
	Limited liability company	05
	Mutual company	06
	Agricultural cooperative	07
	Forestry association	08
	Other organization	09
	Other corporations	10
	Local governments / property wards	11

**Note:** Special limited liability companies are included in the category "incorporated company".

The following question is only for those who selected an answer between [02] and [06] in Question [1] 4.

5. Are capital or investment funds for agricultural management provided by a business in an industry other than agriculture (excluding agricultural cooperatives and municipalities)? Draw a circle in the box corresponding to the best answer.

Not provided		121	1
Provided	Construction / transport industries	122	1
	Food product production / eating & drinking service industries	123	1
	Food & drink wholesalers / retailers	124	1
	Others	125	1

## [1] Households

1. How many members are in your household? 2. How many members of your household are younger than 14 (born after February 1, 1995)?

		Male		Female
No. of household members	103		104	

		Male		Female
Members younger than 14	103		104	

3. Answer the following questions about **household members 15 and older** (born before January 31, 1995).

①			Head of household	Household member 1	Household member 2	Household member 3	Household member 4	Household member 5	Household member 6	Household member 7
②	Relationship to head of household		0 1							
③	Age (as of February 1)	Age								
④	Gender		Male	1	1	1	1	1	1	1
			Female	2	2	2	2	2	2	2
⑤	No. of days engaged in own farming	Not engaged in farming	1	1	1	1	1	1	1	1
		1 to 29 days	2	2	2	2	2	2	2	2
		30 to 59 days	3	3	3	3	3	3	3	3
		60 to 99 days	4	4	4	4	4	4	4	4
		100 to 149 days	5	5	5	5	5	5	5	5
		150 to 199 days	6	6	6	6	6	6	6	6
		200 to 249 days	7	7	7	7	7	7	7	7
		More than 250 days	8	8	8	8	8	8	8	8
⑥	More days were spent for which of these two options?	Own farming	1	1	1	1	1	1	1	1
		Other than own farming	2	2	2	2	2	2	2	2
⑦	Main activities over the past year	Main work	Mostly own farming	1	1	1	1	1	1	1
		Mostly other work	2	2	2	2	2	2	2	2
		Mostly own business other than farming	3	3	3	3	3	3	3	3
		House work / child rearing	4	4	4	4	4	4	4	4
		Student (including trainee)	5	5	5	5	5	5	5	5
		Other than the above	6	6	6	6	6	6	6	6
⑧	Farm / forestry manager and successor	Manager	1	1	1	1	1	1	1	1
		Successor	2	2	2	2	2	2	2	2
⑨	When one household conducts multiple management operations	Manager	1	1	1	1	1	1	1	1
		Successor	2	2	2	2	2	2	2	2

Relationship No.

01	Head of household
02	Head of household's spouse
03	Child (15 or older)
04	Child's spouse
05	Head of household's parents
06	Head of household's spouse's parents
07	Sibling
08	Grand-parent
09	Grandchild (15 or older)
10	Grand-child's spouse
11	Other

## 4. Household Income

- (1) Are there members of the household who over the past year were engaged in work other than own farming? Circle number corresponding to the best answer.

	109
Yes	1
No	2

- (2) Is the main household income from own farming or work other than own farming? Circle number corresponding to the best answer.

	110
Own farming	1
Other than own farming	2

The following question is only for those households without a successor (those not circling 2 for questions (8) and (9).)

5. Is there a successor (15 years old or older) currently living apart from the household? Circle number corresponding to the best answer (including expected successors).

	111
Yes	1
No	2

**Note:** A "successor" is a person who will continue the household's farm management for the next generation.

## Notice

- For "(5) Number of days engaged in own farming" draw a circle around the answer best representing the number of days in which members of the household 15 and over engaged in eight hours of farm work. (This includes helpers engaged in farm work, as well as entrusted farm operations.)

Example:

Hours engaged in own farming over the past year:

- No such parties → Not engaged in own farming
- Worked less than 8 hours (1 hour to 8 hours) → 1 day
- Work 4 hours a day for 100 days → 50 days  
(A person who works 4 hours a day will complete a full day's work over 2 days, thus half of 100 days is 50 days.)

**Note:** For other questions regarding the number of days engaged in work ([3] and [12]), answer using the calculation of 1 day equals 8 hours of work.

- For "(6) Which of the following involved more days of work":

- Among the two options "own farming" and "other than own farming" draw a circle around the one involving the larger number of days worked for the purpose of earning income.
- Even for those in "(7) Main Lifestyle Conditions over Past Year" falling under categories such as "housework / child rearing", "student (including trainee)" and "other", draw a circle around the answer best representing the number of days in which they were engaged in work, either helping out with own farming or a part-time job other than own farming.
- If the number of days are the same, circle the option where the greater income was earned.

- Draw a circle around the option best describing "(7) Main Lifestyle Conditions over Past Year".

- Members who mainly work
  - Mainly works managing farming operations → "Mainly works at own farming"
  - Mainly works for a company → "Mainly works at other employment"
  - Mainly works at a store or other family business other than farming → "Mainly works at family business other than farming"
- Does house work and raises children → "House work / child rearing"
- Students and trainees → "Student (includes trainees)"
- Elderly and sick people who usually do not engage in work → "Others"

## [3] Farm Workforce

- Write the total number of permanently hired worker on farm management over the past year (employees with a contract in advance to work at least seven months during the year) and the number of engaged in farming.

		No. of Employees people		Total No. of Days Worked
Male	323		324	
Female	325		326	

- Write the total number of temporary hired worker on farm management over the past year such as day- and seasonal-laborers (including helpers) and the number of days engaged in farming.

		No. of Employees people		Total No. of Days Worked
Male	323		324	
Female	325		326	

**Note:** In addition to farm trainees and mutual help among farm households (labor exchanges), this also includes children living away from the farm household and other such help.

The following is to be filled out only in cases of incorporated organization such as a company or a voluntary organization or a single household engaged in multiple operations

- For household members, farm managers, officers and members, write the number of workers for each option regarding the number of days engaged in farming over the past year.

		Male		Female
1 to 29 days	303		304	
30 to 59 days	305		306	
60 to 99 days	307		308	
100 to 149 days	309		310	
150 to 199 days	311		312	
200 to 249 days	313		314	
250 or more days	315		316	
Total				

**Note:** "Farm manager" is the person in charge of overseeing farm operations. "Officer" is a person serving as an officer for a company, agricultural producer's cooperative corporation or similar organization. "Member" refers to a member of a rural community or similar body.

## [4] Land

Please read the Notice on page 5 before completing this section.

### 1. Please fill in the following section regarding the area of paddy fields.

		(ha)	a
Owned Paddy Fields	202		
Lent to others	203		
Abandoned	204		
Rented from others	205		
Cultivated paddy fields under management (202 - 203 - 204 + 205)	①		

What types of crops were grown on your cultivated paddy fields under management over the past year? Write the land areas corresponding to the items in the table below.

		(ha)	a
Paddy fields growing rice	208		
Growing secondary crops	209		
Growing only crops other than rice	210		
Not growing anything (idled paddy fields)	211		

(The total for items 208, 210 and 211 should be equivalent to Cultivated Paddy Fields under Management (1).

**Note:** "Paddy fields growing rice" includes paddy fields for growing rice as animal feed (in the case of harvesting hulled rice (grains)), but does not include paddy fields for pasture grass rice. "Growing secondary crops" refers to paddy fields used for double-cropping (growing two crops a year)

### 2. Please fill in the following section regarding the area of land under permanent crops.

		(ha)	a
Owned Land under Permanent Crops	212		
Lent to others	213		
Abandoned	214		
Rented from others	215		
Land under permanent crops fall into cultivated land under management (212 - 213 - 214 + 215)	②		

### 3. Please fill in the following section regarding the area of upland fields (including fields exclusively for grazing, excluding land under permanent crops).

		(ha)	a
Owned Upland Fields	218		
Lent to others	219		
Abandoned	220		
Rented from others	221		
Cultivated upland fields under management (218 - 219 - 220 + 221)	③		

What types of crops were grown on your upland fields under management over the past year? Write the land areas corresponding to the items in the table below.

		(ha)	a
Ordinary crops	222		
Only feed crops	223		
Temporary meadow	224		
Nothing being grown	225		

(The total for items 222~225 should be equivalent to Cultivated Upland Fields under Management (3).

**Note:** "Ordinary crops" does not include fields growing only feed crops and temporary meadow. "Only for feed crops" includes upland fields producing grass (but does not include fields producing only grass). Temporary meadow includes grassland created through the grassland construction.

### Notice

- Include land located in other municipalities.
- Write the land classification and area matching the current conditions as opposed to the classification and area originally recorded in the land ledger.
- Include dykes in land area.
- Any land that has been abandoned and is currently not being used as farm land is excluded from the categories of "owned rice paddies, land under permanent crops and upland fields".
- The category of "paddy field, land under permanent crops and upland fields lent to others" includes both cultivated land provided to others for rental fess and for free.
- The category of "paddy field, land under permanent crops and upland fields rented from others" includes both cultivated land borrowed from others for rental fess and for free.
- "Abandoned land" refers to previously cultivated land that has not been used for more than a year (fertility management) and for which there are no plans to resume use within a few years.
- Land that has already reverted to wilderness is not included in the category of "abandoned cultivated land".
- Recording Land Area Examples
  - Facilities with an area of 10 ares

(ha)		a
1	0	0

### 4. Please fill in the following section regarding the area of forest land.

		(ha)	a
Owned Forest Land	902		
Forest land lent to others	903		
Forest land rented from others	904		
Possessed forest land (902 – 903 + 904)			

**Note:** The category of "Forest land lent to others" includes profit-sharing forest land you own that is lent to others. The category of "Forest land rented from others" includes profit-sharing forest land you rent from another party.

### 5. Write the area of land other than cultivated land, such as forestry and wilderness, used over the past year as wild grassland for mowing and grazing.

		(ha)	a
Area of utilized land other than cultivated land	234		

### 6. What was the area of green houses and grass houses used over the past year for horticulture facility?

		(ha)	a
Green house and grass house area	251		

**Note:** Green houses / grass houses refers to facilities where farm operations are possible under normal conditions. This does not include facilities exclusively for growing rice saplings or cultivating mushrooms.

## [5] Farm Machinery

Write the amounts of the following farm machinery that you own (including machinery used by multiple households that you are storing).

		No. owned
Rice planting machine	271	
Tractor	272	
Combine	273	

**Note:** When machinery is shared by many households, the household where the machinery is stored shall be seen as the representative owner.

[6] Production of Agricultural Product

When writing the land area, write "1" for cases where the area is less than 1 a (ares) or 1 m<sup>2</sup>.

1. Write the total areas used over the past year for the planting (cultivation) the following crops to be sold (do not include dykes).

			(ha)	a
Rice, Grains and Cereals	Paddy rice	402		
	Upland rice	403		
	Wheat	405		
	Barley, rye	406		
	Buckwheat	407		
	Other cereals	408		
Potatoes	Potato for raw materials	410		
	Edible potatoes	411		
	Sweet potato	412		
Pulses	Soybeans	414		
	Adzuki beans	415		
	Other pulses	416		
Industrial crops		417		

Note: "Industrial crops" refers to sugarcane, tobacco, tea, sugar beet, konnyaku potato, rape seed, rush, hops, sesame seeds, peppermint, pyrethrum, lavender, medicinal crops and others.

		Open field (ha)	a	Facilities (a)	m <sup>2</sup>
Vegetables	431			482	
Flowers	481			482	
Ornamental trees	483			488	
Other crops	489			490	

Note: The category of "Other crops" refers to any crops that do not fit into any of the categories in the above questions, specifically rice, grains & cereals, potatoes, pulses, industrial crops, vegetables, flowers and ornamental trees. Examples include seeds and saplings for growing fruits, vegetables and forest trees, feed crops, pasture grass and other such items produced to be sold.

2. Write the total cultivated area for cultivating fruits to be sold (including immature orchards).

		Open field (ha)	a	Facilities (a)	m <sup>2</sup>
Fruits	521			522	

The following section is only to be filled out by those who answered that they are planting (cultivating) industrial crops, vegetables, flowers or fruits to be sold in Question [6] 1 and 2.

3. Draw a circle in boxes corresponding to all items being planted (cultivated) to be sold.

(1) Industrial crops

Sugarcane	418	1	Sugar beet	421	1
Tobacco	419	1	Konnyaku potato	422	1
Tea	420	1	Other industrial products	423	1

(2) Vegetables

Tomato	433	1	Cauliflower	453	1
Eggplant	434	1	Burdock	454	1
Green pepper	435	1	Komatsuna leaf	455	1
Cucumber	436	1	String beans	456	1
Cabbage	437	1	Field peas	457	1
Chinese cabbage	438	1	Crown daisy	458	1
Lettuce	439	1	Ginger	459	1
Spinach	440	1	Sweet corn	460	1
Leeks	441	1	Celery	461	1
Onions	442	1	Broad bean	462	1
Daikon radish	443	1	Chingensai (spinach-like vegetable originating in China)	463	1
Carrots	444	1	Leek	464	1
Taro	445	1	Garlic	465	1
Strawberries	446	1	Butterbur	466	1
Watermelon	447	1	Broccoli	467	1
Melon	448	1	Potherb mustard	468	1
Asparagus	449	1	Honewort	469	1
Green soybeans	450	1	Yam	470	1
Turnip	451	1	Lotus root	471	1
Pumpkin	452	1	Other vegetables	472	1

(3) Flowers

Cut flowers	483	1	Potted flowers	485	1
Bulbous flower	484	1	Flower bed seedlings	486	1

(4) Fruits

Onshu tangerines	523	1	Loquat	531	1
Other citrus fruits	524	1	Persimmon	532	1
Apples	525	1	Chestnut	533	1
Grapes	526	1	Apricot	534	1
Japanese pears	527	1	Plum	535	1
Pears	528	1	Kiwi fruits	536	1
Peaches	529	1	Pineapple	537	1
Cherries	530	1	Other fruits	538	1

#### 4. Livestock Raised for Sale

##### Notice

- Include livestock involved in joint grazing and livestock entrusted to outside parties.
- Do not include the management of livestock breeding entrusted to you by a company or other party (animals, feed etc. are provided by the company entrusting you with the operations and you only manage the raising of the animals).

(1) Write the number of dairy cows being raised for sale (raised for their milk).

		Heads			
Older than 2 years (24 months)	572				
Younger than 2 years (24 months)	573				

(2) Write the number of beef cattle bred for sale.

		Heads			
Beef cattle such as Japanese beef cattle	Breeding cows	575			
	Cattle being fattened	576			
	Calves to be sold	577			
Japanese beef cattle and dairy cattle crossbreed	Cattle being fattened	578			
	Calves to be sold	579			
Dairy cattle bred for beef	Cattle being fattened	580			
	Calves to be sold	581			

(3) Write the number of pigs raised for sale.

		Heads			
Breeding sows	583				
Pigs being fattened	584				

(4) Write the number of chickens raised to produce eggs for sale (including nestlings).

		Chickens			
Layers	585				

(5) Write the number of broilers shipped over the past year.

		Chickens			
Broilers	586				

5. Have you engaged in any other agricultural management other than those specified in [6] 1~4 such as raising cultured mushrooms, breeding horses, sheep, goats or other animals, raising silkworms or bees, etc. to be sold.

		587
Yes		1
No		2

#### [7] Entrusted Agricultural Work

Draw a circle the appropriate answers regarding entrusted agricultural work you requested to others over the past year.

		Entrusted	
Paddy rice cultivating	Raising seedlings	731	1
	Plowing & irrigating	732	1
	Rice planting	733	1
	Pest control	734	1
	Mowing & threshing	735	1
	Drying & preparation	736	1
All of the above		737	1
Sugarcane cultivating		738	1
Farming other than the above		739	1

##### Notice

- "Farm management trust" to others is involve in the renting of cultivated land and it is not included in the above.
- "Farming other than the above" refers to accepting entrusted agricultural management for crops other than rice and sugar cane, as well as livestock operations. (Includes cases in which only a portion of operations are entrusted, as well as when all operations are entrusted.)

#### [8] Characteristics of Agricultural Management

1. Did you produce any crops (for sale) in a manner that reduced burdens placed on the environment as compared to norms for your region? Draw a circle for all of the options below that apply.

		131	1
Yes	Reduced usage of chemical fertilizers	132	1
	Reduced use of agricultural chemicals	133	1
	Used compost in soil preparation	134	1

2. Did you conduct side-businesses related to agricultural production? Draw a circle for all of the options below that apply.

		141	1
Yes	Agricultural product processing	142	1
	Rental farms, "Experience farm"	143	1
	Tourist farms	144	1
	Guest inns	145	1
	Farm restaurants	146	1
	Overseas export	147	1
	Others	148	1

**Note:** Answer "No" if all raw materials are purchased from somewhere else.

## [9] Sales of Agricultural Product

1. What was the total sales amount (sales) of agricultural product for the past year (including sales of livestock, silk cocoons, cultured mushrooms and beekeeping products)? Draw a circle in the box corresponding to the most appropriate answer.

	601
No sales	01
Less than 150,000 yen	02
Between 150,000 and 500,000 yen	03
Between 500,000 and 1,000,000 yen	04
Between 1,000,000 and 2,000,000 yen	05
Between 2,000,000 and 3,000,000 yen	06
Between 3,000,000 and 5,000,000 yen	07
Between 5,000,000 and 7,000,000 yen	08
Between 7,000,000 and 10,000,000 yen	09
Between 10,000,000 and 15,000,000 yen	10
Between 15,000,000 and 20,000,000 yen	11
Between 20,000,000 and 30,000,000 yen	12
Between 30,000,000 and 50,000,000 yen	13
Between 50,000,000 and 100,000,000 yen	14
Between 100,000,000 and 300,000,000 yen	15
Between 300,000,000 and 500,000,000 yen	16
More than 500,000,000 yen	17

If more than 500,000,000 yen, write the amount in the box below.

602      hundred million

### Notice

Here "sales amount" refers to the amount of sales before making deductions for such expenses as fertilizer, agricultural chemicals and feed. The estimated amount of farm products produced for your own consumption is not included.

<The following items are included in the sales amount.>

- Estimated value of your agriculture and livestock products which are used for your processed (manufactured) products, as well as provided to farm inns and restaurants.
- Entrance fees for tourist farms that you operate (only in the case where the entrance fee allows for the harvesting of a certain amount of produce by the visitor.)
- Sales amount for items harvested two years ago and then sold from storage over the past year.
- Estimated amount of sales when a sales contract has been concluded but full payment has not been received.

The following section is to be filled out by those who answered they had sales in [9] 1.

2. Draw circles in the corresponding boxes to rank the top three agricultural product sectors in terms of sales over the past year. Also write the percentage of overall sales for these items.

		1st	2nd	3rd	%
Paddy rice / upland rice	603	1	2	3	
Wheat	604	1	2	3	
Miscellaneous cereals, potatoes and pulses	605	1	2	3	
Industrial crops	606	1	2	3	
Open field vegetables	607	1	2	3	
Protected vegetables	608	1	2	3	
Fruits & nuts	609	1	2	3	
Flowers & ornamental trees	610	1	2	3	
Other crops	611	1	2	3	
Dairy	612	1	2	3	
Beef cattle	613	1	2	3	
Pig	614	1	2	3	
Chicken	615	1	2	3	
Sericulture	616	1	2	3	
Other livestock	617	1	2	3	

**Note:** The total for the three percentages may be less than 100% in cases where four or more of the above sectors are being managed. Other crops includes cultivated mushroom. Local chicken and beekeeping is included in other livestock.

3. Draw circles in the appropriate boxes below to indicate all of the recipients of your farm produce shipments over the past year, as well as the largest recipient.

	Recipient		421
Agricultural cooperative	621	1	1
Collecting / shipping organization other than an agricultural cooperative	622	1	2
Wholesaler	623	1	3
Retailer	624	1	4
Food manufacturer / restaurant industry	625	1	5
Direct sales to consumers	626	1	6
Direct sales via the Internet	627	1	7
Others	628	1	

**Note:** Here the term "direct sales" refers to cases in which farm / livestock products that you produced and processed products are sold directly by you to stores and consumers. This includes sales contracts in which you agree to ship products directly to the consumer.

## [10] Entrusted Farm Work

1. Draw a circle in the box corresponding to the amount of income you received over the past year for accepting entrusted farm work, from others.

	726
No sales	01
Less than 150,000 yen	02
Between 150,000 and 500,000 yen	03
Between 500,000 and 1,000,000 yen	04
Between 1,000,000 and 2,000,000 yen	05
Between 2,000,000 and 3,000,000 yen	06
Between 3,000,000 and 5,000,000 yen	07
Between 5,000,000 and 7,000,000 yen	08
Between 7,000,000 and 10,000,000 yen	09
Between 10,000,000 and 15,000,000 yen	10
Between 15,000,000 and 20,000,000 yen	11
Between 20,000,000 and 30,000,000 yen	12
Between 30,000,000 and 50,000,000 yen	13
Between 50,000,000 and 100,000,000 yen	14
Between 100,000,000 and 300,000,000 yen	15
Between 300,000,000 and 500,000,000 yen	16
More than 500,000,000 yen	17

If more than 500,000,000 yen,  
write the amount in the box below.

727

hundred million

### Notice

- "Farm management trust" from others involve in the renting of cultivated land and it is not included in the above.
- "Industrial crops (excluding sugarcane) refers to accepting entrusted farm work for industrial crops such as tobacco, tea, sugar beet, konnyaku potato, rape seed, rush, hops, sesame seeds, peppermint, pyrethrum, lavender, medicinal crops and others.
- "Other crops" refers to accepting entrusted farm work involving crops other than paddy rice, wheat, soybean, industrial crops (including sugarcane), vegetables, fruits, nuts, and feed crops.
- Write the actual area for "area of entrusted farm work".

The following section is to be filled out by those who answered they had sales in [10] 1.

2. Write the area for entrusted rice paddy work accepted from another party over the past year.

		Entrusted Area (ha)		a
Type of Entrusted Work	Raising seedlings	701		
	Plowing & irrigating	702		
	Rice planting	703		
	Pest control	704		
	Mowing & threshing	705		
	Drying & preparation	706		
	All of the above	707		

3. Write the area for entrusted sugar cane work accepted from another party over the past year.

		Entrusted Area (ha)		a
Type of Entrusted Work	Plowing and soil preparation	708		
	Planting	709		
	Tillage and ridging	710		
	Pest control	711		
	Harvesting	712		
All of the above		713		

4. Draw circles corresponding to any other entrusted agricultural work you accepted over the past year.

	Accepted Work	
Wheat cultivation	714	1
Soybean cultivation	715	1
Vegetable cultivation	716	1
Fruit cultivation	717	1
Feed crop cultivation	718	1
Industrial crop (excluding sugar cane) cultivation	719	1
Other crops	720	1
Livestock breeding	721	1
Dairy farm helper	722	1

Notice

- This section should be filled out not only by forest owners' cooperatives, companies and other corporate bodies, but also any households that manage forest operations.
- Write the total number of days worked with one day equivalent to 8 hours of work (refer to the Notice on page 3 for further details).

[12] Forestry Labor Force

1. Among household members, people in charge of management, officers and shared owners of forests, write the number of those engaged in forestry work over the past year for each of the "number of days" options.

		Male	Female
1 to 29 days	923		924
30 to 59 days	925		926
60 to 99 days	927		928
100 to 149 days	929		930
150 to 199 days	931		932
200 to 249 days	933		934
250 or more days	935		936
Total			

2. Write the total number of regular employees for forestry management over the past year (employees with a contract in advance to work at least seven months during the year) and the number of days engaged in forestry management.

		No. of Employees people	Total No. of Days Worked
Male	943		944
Female	945		946

3. Write the total number of temporary employees on forestry management over the past year such as day- and seasonal-laborers (including helpers) and the number of days engaged in forestry management.

		No. of Employees people	Total No. of Days Worked
Male	953		954
Female	955		956

4. Write the number of employees, both regular and temporary, who were engaged in forestry management for 150 or more days over the past year.

	People
Total	953

### Notice

- Forestry work includes work by employees and entrusted work.
- The term "clearing underbrush" includes pruning, vine cutting, culling, removing fallen trees and other such work.
- For the "actual work area", refer to the example provided below and write the area for each item.

<Example>

Even when the clearing of underbrush is performed twice for the same 1 ha of land, do not write 2 ha (still write only 1 ha).

### [13] Forestry Work

1. Draw a circle in boxes corresponding to each of the appropriate items regarding forestry operations over the past five years within the forest land that you own (based on Question [4] 4).

Tree planting		911	1
Clearing underbrush		912	1
Thinning	Cut and dispose	913	1
	Cut and utilize	914	1
Final cutting		915	

2. Write the area of actual operations over the past year in the forest land that you own (based on Question [4] 4).

		(ha)	a
Tree planting		916	
Clearing underbrush		917	
Thinning	Cut and dispose	918	
	Cut and utilize	919	
Final cutting		920	

### [14] Production of Raw Materials

1. Write the amount of raw materials produced over the past year from trees you cut in the forest land that you own (based on Question [4] 4).

		m <sup>2</sup>
Raw materials amount	971	

2. Write the amount of raw materials produced over the past year through entrusted operations and/or the purchase of standing trees (include wood from thinning operations used for raw materials).

		m <sup>2</sup>
Raw material production amount	972	
From purchased standing trees	973	

### [15] Sales of Forestry Products

1. What was the total forestry products sales amount (sales) for the past year? Draw a circle in the box corresponding to the most appropriate answer.

		965
No sales		01
Less than 150,000 yen		02
Between 150,000 and 500,000 yen		03
Between 500,000 and 1,000,000 yen		04
Between 1,000,000 and 2,000,000 yen		05
Between 2,000,000 and 3,000,000 yen		06
Between 3,000,000 and 5,000,000 yen		07
Between 5,000,000 and 7,000,000 yen		08
Between 7,000,000 and 10,000,000 yen		09
Between 10,000,000 and 15,000,000 yen		10
Between 15,000,000 and 20,000,000 yen		11
Between 20,000,000 and 30,000,000 yen		12
Between 30,000,000 and 50,000,000 yen		13
Between 50,000,000 and 100,000,000 yen		14
Between 100,000,000 and 300,000,000 yen		15
Between 300,000,000 and 500,000,000 yen		16
More than 500,000,000 yen		17

If more than 500,000,000 yen, write the amount in the box below.

966      hundred million

The following section is to be filled out by those who answered they had sales in [15] 1.

2. Draw circles in boxes corresponding to forestry products sold over the past year.

Lumber	Standing trees	961	1
	Raw materials	962	1
Pulpwood for chips		963	1
Special forest products		964	1

**Note:** The term "special forest products" includes such items as firewood and charcoal, as well as mountain vegetables and bamboo shoots collected in the forest. However, it does not include cultured mushrooms and forestry saplings.

Also, this does not include cases in which the raw materials produced and sold came from standing trees purchased from another party.

[16] Entrusted Forestry Work

1. Draw a circle in the box corresponding to the amount of income you received over the past year for accepting entrusted forestry work.

	987
No sales	01
Less than 150,000 yen	02
Between 150,000 and 500,000 yen	03
Between 500,000 and 1,000,000 yen	04
Between 1,000,000 and 2,000,000 yen	05
Between 2,000,000 and 3,000,000 yen	06
Between 3,000,000 and 5,000,000 yen	07
Between 5,000,000 and 7,000,000 yen	08
Between 7,000,000 and 10,000,000 yen	09
Between 10,000,000 and 15,000,000 yen	10
Between 15,000,000 and 20,000,000 yen	11
Between 20,000,000 and 30,000,000 yen	12
Between 30,000,000 and 50,000,000 yen	13
Between 50,000,000 and 100,000,000 yen	14
Between 100,000,000 and 300,000,000 yen	15
Between 300,000,000 and 500,000,000 yen	16
More than 500,000,000 yen	17

If more than 500,000,000 yen, write the amount in the box below.

988      hundred million

**Note:** Income from accepting entrusted production of raw materials from standing trees is the difference between the raw materials sales amount and the standing trees purchasing amount.

The following section is to be filled out by those who answered they had sales in [16] 1.

2. Write the area for entrusted forestry work accepted from another party over the past year.

		(ha)		a	
Tree planting	981				
Clearing underbrush	982				
Thinning	Cut and dispose	983			
	Cut and utilize	984			
Final cutting	Entrusted	985			
	Standing tree purchases	986			

**Note:** Write the area of entrusted forestry work, excluding the area of any work that is then entrusted by you to yet another party.

Thank you very much for  
your cooperation.

**List of Prefecture-specific Items in the Agricultural and Forestry Management Entity Questionnaire for the 2010  
World Census of Agriculture and Forestry**

	[11] Prefecture-specific Items 801		Unit
	Questionnaire Items		
Hokkaido	Cultivated land under management is divided among how many housing complexes? Write the number of housing complexes.		complexes
Aomori	How many riding-type speed sprayers do you own?		sprayers
Iwate	How many binders do you own?		binders
Miyagi	What was the amount of farm produce sales (including processed goods) through farm stalls (direct sales) over the past year?		10,000 yen
Akita	How many <i>hinai</i> chickens were shipped over the past year?		chickens
Yamagata	What was the cultivation area for the following fruit grown to be sold?	Cherries	(ha) a
Fukushima	How much compost did you introduce over the past year?		t
Ibaragi	How much of the [Abandoned paddy fields] in Question [4] 1 do you want to rent to others?		(ha) a
Tochigi	What was the area of paddy fields using compost over the past year?		(ha) a
Gunma	Over the past year what was the total planting (cultivation) area for the following item to be sold ?	Cabbage	(ha) a
Saitama	Over the past year what was the sales total for agricultural, livestock and processed products you produced and sold directly to stores and consumers?		10,000 yen
Chiba	Write the number of workers newly hired over the past five years (engaged in farming for at least 150 days/year).		people
Tokyo	What was the amount of sales over the past year for agricultural and livestock products delivered to the market?		10,000 yen
Kanagawa	For produce sales in Question [9], what amount was sold directly to stores and consumers over the past year?		10,000 yen
Niigata	What was the total shipping amount for the following item over the past year?	Tulips (cut)	flowers
Toyama	Over the past year what was the cultivation area for rice paddy seeds to be sold?		(ha) a
Ishikawa	How many more years do you think you can continue managing paddy field cultivation?		years
Fukui	Do you participate in maintenance / management activities conducted by rural communities and land improvement districts? Draw a circle around [1] if the answer is YES.		-
Yamanashi	What was the cultivation area for the following fruit grown to be sold?	Peaches	(ha) a
Nagano	Over the past year what was the sales amount of farm produce and processed products that you produced and sold on your own or through farm stalls?		10,000 yen
Gifu	Over the past year what was the sales amount for farm produce and processed goods sold at morning markets and other direct sales outlets?		1,000 yen
Shizuoka	Write the cultivation areas for sales for the following item.	Tea	(ha) a
Aichi	Over the past year what was the total planting area for the following item grown to be sold?	Cabbage	(ha) a
Mie	Write the rice paddy field area you would be willing to rent to others in the future.		(ha) a
Shiga	Over the past year how much rice was sold directly to consumers?		kg
Kyoto	Over the past year did you engage in organic farming (cultivation without farm chemicals or chemical fertilizers) for sale? Draw a circle around [1] if the answer is YES.		-
Osaka	Write the amount of direct farm produce sales through farm stalls and morning markets over the past year.		1,000 yen
Hyogo	Among your cultivated paddy fields under management, what portion over the past year was used exclusively for feed crops?		(ha) a
Nara	Over the past year what as the sales amount of produce shipped outside of the market (farm stalls, mail order, etc.)?		1,000 yen
Wakayama	What was the cultivation area for the following fruit grown to be sold?	<i>Onshu</i> tangerine	(ha) a
Tottori	Write the amount of flower bed saplings shipped over the past year.		saplings
Shimane	Write the paddy field area that you want to rent to others in the future.		(ha) a
Okayama	Over the past year what was the total area used to cultivate black soy beans to be sold?		(ha) a
Hiroshima	Over the next five years do you intend to continue your current farm management or expand the scale of your operations? Draw a circle around [1] if the answer is YES.		-
Yamaguchi	Over the past year what was the cultivation area for cut flower grown to be sold?		(a) m <sup>2</sup>
Tokushima	What was the cultivation area for the following fruit grown to be sold?	<i>Sudachi</i> (citrus)	(ha) a
Kagawa	Over the past year what was the cultivation area for lettuce grown to be sold?		(ha) a
Ehime	Are you participating in measures to improve the preservation of farm land, water and environments? Draw a circle around [1] if the answer is YES.		-
Kochi	How many PCs do you use for farm management?		PCs
Fukuoka	Regarding approaches to sustainable agriculture (environmentally friendly farming), what was the area designated over the past year for organic farming without the use of farm chemicals and chemical fertilizers?		(a) m <sup>2</sup>
Saga	Write the amount of term leased land over the past year from among land used for cultivating grain for sales.		(ha) a
Nagasaki	How much of the rice paddies, upland fields or land under permanent crops that you own is under the name of a deceased party? Furthermore, how much of that land has been abandoned?	Area under name of deceased party	(ha) a
Kumamoto	How many <i>tatami</i> mats did you produce over the past year?		mats
Oita	What is the area of paddy fields, land under permanent crops and upland fields (including those used exclusively for grazing) that you would be willing to rent to others?		(ha) a
Miyazaki	How many PCs do you own that are used for farm management?		PCs
Kagoshima	Over the past year what was the cultivation area for sugar cane used as a processing raw material (excluding use as a material for distilled spirits and starch)?		(ha) a
Okinawa	Over the past year what was the cultivation area for the following item grown to be sold?	Protected green papaya cultivation	(ha) a

**List of Prefecture-specific Items in the Agricultural and Forestry Management Entity Questionnaire for the 2010 World Census of Agriculture and Forestry**

	[11] Prefecture-specific Items 802		Unit
	Questionnaire Items		
Hokkaido	Write the distance from the house (or office in the case of a company) to the field that is the farthest away.		km
Aomori	Over the past year what was the area of rice straw you harvested on behalf of another party?		(ha) a
Iwate	How many foreign students / trainees have you accepted for the purpose of learning agricultural skills?		students
Miyagi	What was your export value of livestock products (including processed products) over the past year?		10,000 yen
Akita	What was the JAS-certified organic paddy rice cultivation area over the past year?		(ha) a
Yamagata	What was the cultivation area for the following fruit grown to be sold?	Apples	(ha) a
Fukushima	Over the past year what was the cultivation area for peaches grown to be sold?		(ha) a
Ibaragi	How much of the [Abandoned land under permanent crops] in Question [4] 2 do you want to rent to others?		(ha) a
Tochigi	What was the rice paddy area used for rice straw over the past year?		(ha) a
Gunma	Over the past year what was the total planting (cultivation) area for the following item grown to be sold?	Spinach	(ha) a
Saitama	What was the total area of crops planted for feed (including soiling rice, feed rice, others) over the past year?		(ha) a
Chiba	Write the number of farm workers newly hired over the past five years who are currently younger than 40.		people
Tokyo	What was the amount of sales over the past year for agricultural and livestock products provided outside of the market (direct sales, others)?		10,000 yen
Kanagawa	For produce sales in Question [9], what amount was through consigned production?		10,000 yen
Niigata	What was the total shipping amount for the following item over the past year?	Tulips ( bulbs)	bulbs
Toyama	Among the abandoned cultivated fields, what is the area being used for grazing?		(ha) a
Ishikawa	What is the size of paddy field cultivation you hope to have in five years?		(ha) a
Fukui	Over the past year how many times did you participate in maintenance / management activities conducted by rural communities and land improvement districts?		times
Yamanashi	What was the cultivation area for the following fruit grown to be sold?	Japanese plums	(ha) a
Nagano	Over the past five years have you made new hires involving people outside of the agricultural industry? Draw a circle around [1] if the answer is YES.		-
Gifu	Among the farm land you own, what is the area of farm land (rice paddies, upland fields, land under permanent crops) that you would be willing to rent to others?		(ha) a
Shizuoka	Over the past year what was the total cultivation area for the following item grown to be sold?	Onshu tangerines	(ha) a
Aichi	Over the past year what was the total planting area for the following item grown to be sold?	Chrysanthemums	(ha) a
Mie	By how much would you like to expand your paddy rice operations through renting land from others?		(ha) a
Shiga	Over the past year what was the planting (cultivation) area used for organic farming (cultivation without the use of farm chemicals or chemical fertilizers)?		(ha) a
Kyoto	How much of the following pulse item harvested over the past year was consumed by your own family?	Adzuki beans	kg
Osaka	Do you have a successor for farm maintenance and management? Draw a circle around [1] if the answer is YES.		-
Hyogo	How many of the following farming machines do you own?	Running-type pest control machine	machines
Nara	Write the number of farm produce items you provided over the past year for use in school lunches.		items
Wakayama	What was the cultivation area for the following fruit grown to be sold?	Ume (apricots)	(ha) a
Tottori	Over the past year what was the total planting area for the following item grown to be sold?	Stock	(ha) a
Shimane	Write the area for cultivating tea to be sold.		(ha) a
Okayama	What was the cultivation area for the following fruit grown to be sold?	Peaches	(ha) a
Hiroshima	Over the next five years do you plan to reduce the scale of your current agricultural operations? Draw a circle around [1] if the answer is YES.		-
Yamaguchi	Over the past year how much in fruits and vegetables did you ship to morning markets and other such direct sales outlets?		yen
Tokushima	What was the cultivation area for the following fruit grown to be sold?	Yuzu (citrus)	(ha) a
Kagawa	Write the amount of onshu tangerines harvested over the past year to be sold.		t
Ehime	Are you participating in measures to improve the preservation of farmland, water and environments, as well as direct payment systems for mountainous areas? Draw a circle around [1] if you are participating in both.		-
Kochi	Write the area for cultivating tea to be sold.		(ha) a
Fukuoka	Regarding approaches to sustainable agriculture (environmentally friendly farming), what was the farm produce cultivation area over the past year for which the usage of farm chemicals was reduced by half the normal amount in your region?		(a) m <sup>2</sup>
Saga	Write the area of previously abandoned farm land for which cultivation was restarted during the past five years.		(ha) a
Nagasaki	How much of the rice paddies, upland fields or land under permanent crops that you own is under the name of a deceased party? Furthermore, how much of that land has been abandoned?	Area of abandoned land	(ha) a
Kumamoto	Over the past year what area of your rice paddies was used for producing "non-staple food rice"?		(ha) a
Oita	By how much do you want to expand your paddy fields, land under permanent crops or upland fields (including those used exclusively for grazing), either by renting or purchasing?		(ha) a
Miyazaki	What is the area of weather-resistance, in-door (green house, etc.) cultivation?		(a) m <sup>2</sup>
Kagoshima	Write the area used over the past year to cultivate Japanese daikon radish for use as a processing raw material.		(ha) a
Okinawa	Over the past year what was the total cultivation area for the following item grown to be sold?	Open field green papaya cultivation	(ha) a

**List of Prefecture-specific Items in the Agriculture and Forestry Management Entity Questionnaire for the 2010 World Census of Agriculture and Forestry**

	[11] Prefecture-specific Items 803		Unit

Hokkaido	Write the area (size) covered by sustainable agriculture approaches.		(ha) a
Aomori	Over the past year what was the size of the area you sprayed with compost on behalf of another party?		(ha) a
Iwate	Over the past year how much of your farm produce sales came from consigned production agreements?		10,000 yen
Miyagi	Write the number of foreigners accepted over the past year to learn farming techniques who were engaged in farm work for 150 or more days.		people
Akita	What was your JAS-certified organic vegetable cultivation area over the past year?		(ha) a
Yamagata	What was the cultivation area for the following fruit grown to be sold?	Grapes	(ha) a
Fukushima	What amount of your sales for the last year was through contracted production?		10,000 yen
Ibaragi	What is the area of paddy fields, upland fields or land under permanent crops that you want to rent from others in order to expand your agricultural operations?		(ha) a
Tochigi	Write the area of paddy fields used over the past year to grow straw rice for feed.		(ha) a
Gunma	Over the past year what was the total planting (cultivation) area for the following item grown to be sold?	Cucumbers	(ha) a
Saitama	Over the next five years, how much farm land would you be willing to rent to other farms?		(ha) a
Chiba	How much compost did you introduce over the past year?		t
Tokyo	Over the past five years how much farm land was sold in order to pay inheritance tax?		(ha) a
Kanagawa	Do you keep a record of farming chemical usage? Draw a circle around [1] if the answer is YES.		-
Niigata	What was the total shipping amount for the following item over the past year?	Strawberries	(t) kg
Toyama	Over the past year what was the total cultivation area for bulb-type flowers grown to be sold?		(ha) a
Ishikawa	If you reduce or stop paddy field cultivation in the future, would you rent the unused sections of the fields? Draw a circle around [1] if the answer is YES.		-
Fukui	What is the area of farm land with set user rights?		(ha) a
Yamanashi	What was the cultivation area for the following fruit grown to be sold?	Grapes	(ha) a
Nagano	What is the cultivation area for gentian (autumn bellflower) grown to be sold?		(ha) a
Gifu	Write the amount of farming chemicals used for your cultivated land under management over the past year.		kg
Shizuoka	Over the past year what was the total planting area for the following item grown to be sold?	Melons	(ha) a
Aichi	What as the cultivation area for "onshu tangerines" grown to be sold?	Onshu tangerines	(ha) a
Mie	What is the area of paddy fields you are considering entrusting to others in the future?		(ha) a
Shiga	Over the past year what was the area of organic vegetable planting / cultivation (cultivation without the use of farm chemicals and chemical fertilizers)?		(ha) a
Kyoto	How much of the following pulse item harvested over the past year was consumed by your own family?	Black soy beans	kg
Osaka	Do you own farmland in an urbanization promotion zone? Draw a circle around [1] if the answer is YES.		-
Hyogo	How many of the following farming machines do you own?	Riding-type speed sprayer	sprayers
Nara	How much compost did you use over the past year?		t
Wakayama	What was the cultivation area for the following fruit grown to be sold?	Kaki (persimmons)	(ha) a
Tottori	Over the past year what was the total planting area for the following item grown to be sold?	Broccoli	(ha) a
Shimane	What was the tea sales amount over the past year?		10,000 yen
Okayama	What was the cultivation area for the following fruit grown to be sold?	Grapes	(ha) a
Hiroshima	Over the next five years do you plan to entrust your farm management to some one else (such as a successor or community agricultural management organization)? Draw a circle around [1] if the answer is YES.		-
Yamaguchi	Among the crops grown on your fields over the past year, what was the total amount for grains (wheat, barley, rye) and soy beans.		(ha) a
Tokushima	Over the past year what was the planting area for the following vegetable grown to be sold?	Rape blossoms	(ha) a
Kagawa	What was the cultivation area for the following fruit grown to be sold?	Kiwi	(ha) a
Ehime	Write the area of idle farmland.		(ha) a
Kochi	Among the paddy fields you own, how much do you want to rent to others?		(ha) a
Fukuoka	Regarding approaches to sustainable agriculture (environmentally friendly farming), over the past year what was the area for farm produce cultivation using less than half the amount of chemical fertilizer common in your region?		(a) m <sup>2</sup>
Saga	How much of the rice produced over the past year was for your own consumption (including rice grown by relatives)?		kg
Nagasaki	What area of rice cultivation over the past year was rice straw to be sold, transferred or used yourself for livestock?		(ha) a
Kumamoto	Do you keep a production history for the top farm product in terms of sales from Question [9] 2? Draw a circle around [1] if the answer is YES.		-
Oita	Over the past year what was the sales amount of farm produce and processed items through "individual sales" and "delivery to direct sales outlets"?		10,000 yen
Miyazaki	Over the past year what was the area of in-door (green house, etc.) cultivation using heat from alternative energy sources?		(a) m <sup>2</sup>
Kagoshima	Write the area used over the past year to cultivate produce other than sugar cane and Japanese daikon radish for use as a processing raw material.		(ha) a
Okinawa	Over the past year what was the total cultivation area for the following item grown to be sold?	Protected mango cultivation	(ha) a

**List of Prefecture-specific Items in the Agricultural and Forestry Management Entity Questionnaire for the 2010 World Census of Agriculture and Forestry**

	[11] Prefecture-specific Items 804		Unit
