

# Azerbaijan - Agricultural Census, 2015

**State Statistical Committee (SSC)**

Report generated on: December 8, 2020

Visit our data catalog at: <https://microdata.fao.org/index.php>

# Overview

## Identification

### ID NUMBER

AZE\_2015\_AC\_v01\_EN\_M\_v01\_A\_OCS

## Overview

### KIND OF DATA

Census/enumeration data [cen]

### UNITS OF ANALYSIS

Households

## Scope

### NOTES

The scope of the study includes:

- Land property, rent relations and land using
- Sown area of agricultural plants
- Perennial plants
- Land areas treated with fertilizers and pesticides in agriculture year
- Irrigation methods applied in farm
- Number and breed of livestock and poultry
- Fish farming in lakes and ponds
- Equipment for processing of agricultural products
- Existing of agricultural buildings and structures
- Existing of agricultural equipment and machines
- Employees working in agriculture

### TOPICS

Topic	Vocabulary	URI
Agriculture & Rural Development	FAO	
Land (policy, resource management)	FAO	
Water	FAO	
Infrastructure	FAO	
Labor	FAO

The statistical unit was the agricultural holding, defined as an economic entity engaged in the production of crop and livestock products. The AC covered both holdings in the household sector and in the non-household sector.

## Producers and Sponsors

## PRIMARY INVESTIGATOR(S)

Name	Affiliation
State Statistical Committee (SSC)	

## OTHER PRODUCER(S)

Name	Affiliation	Role
Ministry of Agriculture		Technical assistance
Ministry of Economy		Technical assistance
Ministry of Ecology and Natural Resources		Technical assistance
Ministry of Finance		Technical assistance
State Committee on Property Issues		Technical assistance
Azerbaijan State Agrarian University		Technical assistance
Institute of Economy of National Sciences Academy		Technical assistance
Scientific-Research Institute on Agriculture Economy		Technical assistance

## Metadata Production

## METADATA PRODUCED BY

Name	Abbreviation	Affiliation	Role
Office of Chief Statistician	OCS	Food and Agriculture Organization	Adoption of metadata for FAM
Census team, Statistics Division	ESS	Food and Agriculture Organization	Metadata producer

## DDI DOCUMENT VERSION

AZE\_2015\_AC\_v01\_EN\_M\_v01\_A\_OCS\_v01

## DDI DOCUMENT ID

DDI\_AZE\_2015\_AC\_v01\_EN\_M\_v01\_A\_OCS\_FAO

# Sampling

## Sampling Procedure

---

### 1. Methodological modality for conducting the census

The classical approach was used in the AC 2015.

### 2. Frame

Statistical registers and administrative records were used to build the frame.

### 3. Complete and/or sample enumeration methods

The AC 2015 was conducted by complete enumeration of agricultural holdings.

# Questionnaires

## Overview

---

Two questionnaires were used in the AC 2015:

- a. one for holdings in the non-household sector (Form 1)
- b. one for those in the household sector (Form 2)

The 16 core items recommended by FAO to be collected in the WCA 2010 were covered, namely:

- 0001 Identification and location of agricultural holding
- 0002+ Legal status of agricultural holder
- 0003 Sex of agricultural holder
- 0004 Age of agricultural holder
- 0005 Household size
- 0006 Main purpose of production of the holding
- 0007 Area of holding according to land use types
- 0008 Total area of holding
- 0009 Land tenure types on the holding
- 0010 Presence of irrigation on the holding
- 0011 Types of temporary crops on the holding
- 0012 Types of permanent crops on the holding and whether in compact plantation
- 0013 Number of animals on the holding for each livestock type
- 0014 Presence of aquaculture on the holding
- 0015+ Presence of forest and other wooded land on the holding
- 0016 Other economic production activities of the holding's enterprise

See questionnaire in external materials.

## Data Collection

### Data Collection Dates

---

Start	End	Cycle
2015-06-01	2015-06-30	N/A

### Data Collection Mode

---

Face-to-face [f2f]

### Data Collection Notes

---

Data collection from the agricultural holdings in the household sector was undertaken using the face-to-face interviewing method and a printed questionnaire (the PAPI method). Self-interviewing using paper questionnaires was applied to collect census data from holdings in the non-household sector.

### Questionnaires

---

Two questionnaires were used in the AC 2015:

- a. one for holdings in the non-household sector (Form 1)
- b. one for those in the household sector (Form 2)

The 16 core items recommended by FAO to be collected in the WCA 2010 were covered, namely:

- 0001 Identification and location of agricultural holding
- 0002+ Legal status of agricultural holder
- 0003 Sex of agricultural holder
- 0004 Age of agricultural holder
- 0005 Household size
- 0006 Main purpose of production of the holding
- 0007 Area of holding according to land use types
- 0008 Total area of holding
- 0009 Land tenure types on the holding
- 0010 Presence of irrigation on the holding
- 0011 Types of temporary crops on the holding
- 0012 Types of permanent crops on the holding and whether in compact plantation
- 0013 Number of animals on the holding for each livestock type
- 0014 Presence of aquaculture on the holding
- 0015+ Presence of forest and other wooded land on the holding
- 0016 Other economic production activities of the holding's enterprise

See questionnaire in external materials.

## Data Processing

### Data Editing

---

#### (a) DATA PROCESSING AND ARCHIVING

The data from census questionnaires were entered into the AC database manually by operators in regional offices of the SSC, using the MySQL program.

#### (b) CENSUS DATA QUALITY

A mechanism for the monitoring and supervision of census fieldwork was established. It included supervision of fieldwork by supervisors, daily checks of the quality of the census questionnaires filled by enumerators and, if necessary, repeated visits to farms the data relating to which were in doubt. In addition, a PES was conducted to assess the AC's results.

## Data Appraisal

### **Other forms of Data Appraisal**

Preliminary census results were published in 2016. The final results were disseminated in 13 volumes in 2016. The census results were disseminated at the national and subnational level.
