

# Equatorial Guinea - Census of Agriculture, 2015

**Ministry of Economy, Planning and Public Investment (MEPPI)**

Report generated on: December 14, 2020

Visit our data catalog at: <https://microdata.fao.org/index.php>

## Overview

### Identification

#### ID NUMBER

GNQ\_2015\_AC\_v01\_EN\_M\_v01\_A\_OCS

### Overview

#### KIND OF DATA

Census/enumeration data [cen]

#### UNITS OF ANALYSIS

Households

#### TOPICS

Topic	Vocabulary	URI
Agriculture & Rural Development	FAO	
Livestock	FAO	

#### KEYWORDS

crop production, Livestock production

### Coverage

#### GEOGRAPHIC COVERAGE

National coverage

#### UNIVERSE

The statistical unit used in the GCA 2015 was the agricultural holding, defined as "an economic unit of agricultural production comprising all livestock kept, all land used partially or totally for agricultural production without regard to title, legal form or size, under the single management exercised by one or more individuals in the household, jointly by two or more individuals in different households". Only the agricultural holdings in the household sector ("agricultural households") were covered in the CA.

### Producers and Sponsors

#### PRIMARY INVESTIGATOR(S)

Name	Affiliation
Ministry of Economy, Planning and Public Investment (MEPPI)	

#### OTHER PRODUCER(S)

Name	Affiliation	Role
Food and Agriculture Organization	United Nations	Technical assistance
The United Nations Population Fund	United Nations	Technical assistance
United Nations Children's Fund	United Nations	Technical assistance
The International Labour Organization	United Nations	Technical assistance
The United Nations Development Programme	United Nations	Technical assistance

## Metadata Production

---

### METADATA PRODUCED BY

Name	Abbreviation	Affiliation	Role
Office of Chief Statistician	OCS	Food and Agriculture Organization	Adoption of metadata for FAM
Census team, Statistics Division	ESS	Food and Agriculture Organization	Metadata producer

### DDI DOCUMENT VERSION

GNQ\_2015\_CA\_v01\_EN\_M\_v01\_A\_OCS\_v01

### DDI DOCUMENT ID

DDI\_GNQ\_2015\_CA\_v01\_EN\_M\_v01\_A\_OCS\_FAO

# Sampling

## Sampling Procedure

---

### i. Methodological modality for conducting the census

The GCA 2015 was integrated with the PHC 2015. The census modality used was the classical approach.

### ii. Frame

The cartography phase of the two censuses delineated and digitized the boundaries of each village community (CV) in rural areas and neighbour community (CP) in urban areas. EAs were delineated within each CV/CP and EA maps were prepared for data collection. The census cartography used high-resolution satellite images covering the entire territory. The PHC 2015 provided the list of households, identified during the census, that engaged in own-account agricultural activity.

### iii. Complete and/or sample enumeration methods

The data collection was carried out on a complete enumeration basis.

### iv. Sample design

No sampling was applied.

# Questionnaires

## Overview

---

One single questionnaire was administered for the census of agriculture. The census questionnaires covered all 16 core items recommended in the WCA 2010. The core items include:

- 0001 Identification and location of agricultural holding
- 0002+ Legal status of agricultural holder
- 0003 Sex of agricultural holder
- 0004 Age of agricultural holder
- 0005 Household size
- 0006 Main purpose of production of the holding
- 0007 Area of holding according to land use types
- 0008 Total area of holding
- 0009 Land tenure types on the holding
- 0010 Presence of irrigation on the holding
- 0011 Types of temporary crops on the holding
- 0012 Types of permanent crops on the holding and whether in compact plantation
- 0013 Number of animals on the holding for each livestock type
- 0014 Presence of aquaculture on the holding
- 0015+ Presence of forest and other wooded land on the holding
- 0016 Other economic production activities of the holding's enterprise

## Data Collection

### Data Collection Dates

---

Start	End	Cycle
2015-06-20	2015-07-17	N/A

### Data Collection Mode

---

Computer Assisted Personal Interview [capi]

### Questionnaires

---

One single questionnaire was administered for the census of agriculture. The census questionnaires covered all 16 core items recommended in the WCA 2010. The core items include:

- 0001 Identification and location of agricultural holding
- 0002+ Legal status of agricultural holder
- 0003 Sex of agricultural holder
- 0004 Age of agricultural holder
- 0005 Household size
- 0006 Main purpose of production of the holding
- 0007 Area of holding according to land use types
- 0008 Total area of holding
- 0009 Land tenure types on the holding
- 0010 Presence of irrigation on the holding

- 0015+ Presence of forest and other wooded land on the holding
- 0016 Other economic production activities of the holding's enterprise

## Data Processing

### Data Editing

---

The CAPI method (with tablets) was used for data collection. Data were downloaded and backed up every two days by the district supervisor to quickly check for errors and ensure correction and storage for further cleaning at a later stage.

#### 1. CENSUS DATA QUALITY

No information about data quality aspects was provided in the census materials available.

#### 2. DATA DISSEMINATION AND USE

At the time of publication, the GCA 2015 report with the final results had not yet been released.
