NER_2019_RIMA_v01_EN_M_v01_A_OCS

Overview

ABSTRACT

Niger like the other countries of the Sahel (Mali, Burkina Faso) is faced with agro-pastoral crises mainly due to consecutive droughts and high climate variability. These crises have resulted in the reduction of the livelihoods of populations based on agriculture and livestock, thus worsening food insecurity and malnutrition within households. They are exacerbated by the insecurity that prevails in cross-border municipalities. The following key messages and recommendations are taken from a baseline study that was carried out in the regions of Tillabéri and Tahoua in mid-2019 as part of the partnership between FAO and the European Union (EU), through the Network. global campaign against food crises.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Households

KEYWORDS

Community analysis, Household agricultural production, Household characteristics, Household dwellings, Household essential practices, Household expenditure, Household livestock, Household shocks, Household source of income, Household coping strategies, Household transfers

Coverage

GEOGRAPHIC COVERAGE

Regional

Producers and Sponsors

PRIMARY INVESTIGATOR(S)

Name	Affiliation
Food and Agriculture Organization	United Nations

OTHER PRODUCER(S)

Name	Affiliation	Role
Niger National Institute of Statistics		Technical support
Living Standards Measurement Study - Integrated Surveys on Agriculture group	World Bank	Technical support

Metadata Production

METADATA PRODUCED BY

Name	Abbreviation	Affiliation	Role
Ellestina Jumbe		Food and Agriculture Organization	Metadata producer

Office of Chief Statistician	OCS	Food and Agriculture Organization	Metadata adapted for FAM
