## Identification

### SURVEY ID NUMBER

TAJ\_2018\_LPDP-IIAS\_v01\_EN\_M\_v01\_A\_OCS

### TITLE

Livestock and Pasture Development Project, IFAD Impact Assessment Surveys, 2018

### COUNTRY

Name	Country code
Tajikistan	TAJ

### STUDY TYPE

Agricultural Survey [ag/oth]

### ABSTRACT

The Livestock and Pasture Development Project (LPDP) was designed to increase the nutritional status and incomes of poor rural households in the Khatlon region by boosting livestock productivity through improvement of the productive capacity of pastures and through breeding and mating techniques combined with easier access to water.

The project comprised three main components which aimed at: developing an institutional capacity at the village level creating managerial structure and social cohesion in managing pastureland, through the establishment of Pasture User Unions (PUUs); at improving livestock husbandry practices and increasing fodder production and livestock production and productivity. Finally, a third component aimed at empowering women by providing trainings and livestock packages to vulnerable female-headed households.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Scope

### NOTES

The subjects covered by the survey are the following:

- socio-demographic characteristics
- child anthropometry
- housing
- durable goods
- rapid consumption assessment
- livestock
- available land
- agricultural production
- agroforestry
- perennial crop production
- home garden
- inputs
- farm implements, machinery and structures
- wage/salary income
- self employment
- other income sources
- access to credit
- internal migration
- international migration

- social capital.

## Coverage

### GEOGRAPHIC COVERAGE

Regional. Five districts of the Khatlon region.

### UNIVERSE

Poor rural households

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name	Affiliation
International Fund for Agricultural Development	United Nations

### FUNDING AGENCY/SPONSOR

Name	Abbreviation	Role
International Fund for Agricultural Development	IFAD	Funding
Government of the Republic of Tajikistan	GOV	Funding

## Sampling

### SAMPLING PROCEDURE

The initial sample comprised a total of 120 villages (half treatment and half control) with 20 households to be selected in each village in order to reach the total estimated sample size of 2,400 households. Quantitative data were collected at village (PUU) and household level in the Khatlon region.

### WEIGHTING

No weighting.

## Data Collection

### DATES OF DATA COLLECTION

Start	End
2018-02	2018-05

### DATA COLLECTION MODE

Computer Assisted Personal Interview [capi]

## Questionnaires

### QUESTIONNAIRES

The main data collection instruments for this impact assessment entail household and community questionnaires. Both surveys were administered between February 2018 and May 2018. The data collected refer to the twelve months preceding the survey implementation. In particular, data on agricultural production takes as reference period the last completed agricultural cycle namely the period of time between October 2016 and November 2017. The household questionnaire collected information at household level on a number socio-economic characteristics, land and assets ownership, agricultural and livestock production, access to financial services, social capital, participation to organizations and associations and

migration. The type of data collected through the community questionnaire included access to infrastructure and basic services, main economic activities, social capital and collective action, organizations, networks and livestock measurements by breed.

Note: some variables have missing labels. Please, refer to the questionnaire for more details.

## Access policy

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

### CITATION REQUIREMENTS

The use of the dataset should be referenced in any publication, using the following citation:

International Fund for Agricultural Development. Livestock and Pasture Development Project, IFAD Impact Assessment Surveys, Tajikistan, 2018. Dataset downloaded from <https://microdata.fao.org>.

## Disclaimer and copyrights

### DISCLAIMER

The user of the data acknowledges that the original collector of the data, the authorized distributor of the data, and the relevant funding agency bear no responsibility for use of the data or for interpretations or inferences based upon such uses
