TITLE

Data in Emergencies Monitoring Household Survey – Round 3, Zimbabwe, 2021

COUNTRY

| Name | Country code |
|----------|--------------|
| Zimbabwe | ZWE |

STUDY TYPE

Agricultural Survey [ag/oth]

ABSTRACT

The FAO has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality).

The FAO launched a Round 3, randomised telephone interviews survey on 28 September 2021 to monitor agricultural livelihoods and food security in Zimbabwe. Data collection resumed on 14 October 2021.

The random sample of 1539 respondents were reached, including 574 contacts from a previous round of data collection undertaken between 4 February and 9 March 2021.

Between 146 and 188 agricultural households were sampled per province; weights were applied to correct for disproportionate sampling.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Households

Scope

NOTES

HOUSEHOLD : household information

INCOME SOURCES, SHOCKS : income changes, shocks experienced by households

CROP PRODUCTION : crops planted, area planted, area harvested, crop production difficulties

CROP MARKETING : crop sale difficulties, crop sale price

LIVESTOCK PRODUCTION : types of livestock present on holding, number of livestock, livestock production difficulties

LIVESTOCK MARKETING : livestock sale, livestock sale difficulties, livestock sale price

FISHERIES PRODUCTION : fish activity, comparison of fish production,

FISHERIES MARKETING : fish sale, fish sale difficulties, fish sale price

FOOD SECURITY AND CONSUMPTION : food consumption, food utilization, coping strategies

NEEDS ASSISTANCE : open questions on the needs for assistance

Sampling

SAMPLING PROCEDURE

A total of 1 539 respondents were reached, including 574 contacts from a previous round of data collection undertaken between 4 February and 9 March 2021. Between 146 and 188 agricultural households were sampled per province; weights were applied to correct for disproportionate sampling.

WEIGHTING

The final weight is a combination of the regional base weights, quota weights to correct for the disproportionate sampling that was implemented for crop producing and livestock producing households, wealth weights as the access to flush toilets and finally the level of education of the head of household.

Data Collection

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

CITATION REQUIREMENTS

The use of the dataset should be referenced in any publication, using the following citation:
