## Identification

### SURVEY ID NUMBER

ZWE\_2022\_DEMHS-R4\_v01\_EN\_M\_v01\_A\_OCS

### TITLE

Data in Emergencies (DIEM) Monitoring System – Household Survey – Round 4, Zimbabwe, 2022

### COUNTRY

Name	Country code
Zimbabwe	ZWE

### STUDY TYPE

Agricultural Survey [ag/oth]

### ABSTRACT

The Food and Agriculture Organization of the United Nations (FAO) has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality). This fourth-round survey reached 1 988 households. Eight out of the ten provinces in Zimbabwe were surveyed: Manicaland, Mashonaland Central, Mashonaland East, Mashonaland West, Masvingo, Matabeleland North, Matabeleland South and Midlands. The survey was representative at the Admin 1 level and targeted 180 agricultural households per province and 295 non-agricultural households per province. The survey was conducted from 29 March 2022 to 11 May 2022 through computer-assisted telephone interviews (CATI).

For more information, see <https://data-in-emergencies.fao.org/pages/monitoring>.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Scope

### NOTES

The survey collected information on:

- HOUSEHOLD : household information
- INCOME SOURCES, SHOCKS : income changes, shocks experienced by households
- CROP PRODUCTION : crops planted, area planted, area harvested, crop production difficulties
- CROP MARKETING : crop sale difficulties, crop sale price
- LIVESTOCK PRODUCTION : types of livestock present on holding, number of livestock, livestock production difficulties
- LIVESTOCK MARKETING : livestock sale, livestock sale difficulties, livestock sale price
- FISHERIES PRODUCTION : fish activity, comparison of fish production
- FISHERIES MARKETING : fish sale, fish sale difficulties, fish sale price
- FOOD SECURITY AND CONSUMPTION : food consumption, food utilization, coping strategies
- NEEDS ASSISTANCE : open questions on the needs for assistance

## Coverage

## Sampling

### SAMPLING PROCEDURE

This fourth-round survey utilized stratified sampling and random digital dialing (RDD) techniques reaching 1 988 households. Eight out of the ten provinces in Zimbabwe were surveyed: Manicaland, Mashonaland Central, Mashonaland East, Mashonaland West, Masvingo, Matabeleland North, Matabeleland South and Midlands. The survey was representative at the Admin 1 level and targeted 180 agricultural households per province and 295 non-agricultural households per province. The survey was conducted from 29 March 2022 to 11 May 2022 through computer-assisted telephone interviews (CATI). Of the surveyed households, 63 percent were involved in both livestock and crop production, 24 percent were involved in crop production, 9 percent were involved in livestock production and 4 percent were involved in none of the above.

### WEIGHTING

Data were weighted at the analytical stage for total population, crop and livestock producer quotas and wealth indicators (toilet facilities as a proxy).

## Data collection

### DATES OF DATA COLLECTION

Start	End
2022-03-29	2022-05-11

### DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

## Data Processing

### DATA EDITING

The datasets have been edited and processed for analysis by the Needs Assessment team at the Office of Emergency and Resilience, FAO, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

**\*\*STATISTICAL DISCLOSURE CONTROL (SDC)\*\***

The dataset was anonymized using Statistical Disclosure methods by the Office of Chief Statistician at FAO. All direct identifiers have been removed prior to data submission.

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

### CITATION REQUIREMENTS

The use of the dataset should be referenced in any publication, using the following citation:
