## Identification

### SURVEY ID NUMBER

GTM\_2022\_DIEM-HS-R1\_v01\_EN\_M\_v01\_A\_ESS

### TITLE

Data in Emergencies (DIEM) Monitoring System - Household Survey - Round 1, Guatemala, 2022

### COUNTRY

Name	Country code
Guatemala	GTM

### STUDY TYPE

Agricultural Census [ag/census]

### ABSTRACT

The FAO has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality). FAO launched the first DIEM-Monitoring household survey on 28 June 2022 to monitor agricultural livelihoods and food security in both rural and urban areas of Guatemala. Data collection continued until 3 August 2022. The random sample of 4,937 households was representative at the departmental level and targeted all 22 departments of Guatemala. The results of 20 departments have been presented due to inconsistencies identified in Escuintla and Suchitepéquez. For more information, please go to <https://data-in-emergencies.fao.org/pages/monitoring>

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Scope

### NOTES

HOUSEHOLD : household information INCOME SOURCES, SHOCKS : income changes, shocks experienced by households  
 CROP PRODUCTION : crops planted, area planted, area harvested, crop production difficulties CROP MARKETING : crop sale difficulties, crop sale price LIVESTOCK PRODUCTION : types of livestock present on holding, number of livestock, livestock production difficulties LIVESTOCK MARKETING : livestock sale, livestock sale difficulties, livestock sale price FISHERIES PRODUCTION : fish activity, comparison of fish production, FISHERIES MARKETING : fish sale, fish sale difficulties, fish sale price FOOD SECURITY AND CONSUMPTION : food consumption, food utilization, coping strategies NEEDS ASSISTANCE : open questions on the needs for assistance

## Sampling

## SAMPLING PROCEDURE

For the GTM Round 1 household survey, a total of 4,937 households were interviewed. A two-stage sampling approach was employed to ensure representation at the departmental level across Guatemala, targeting all 22 departments. In the first stage, a sample size of 31 clusters per department was determined. Each cluster comprised eight households, totaling 248 households per department. The second stage involved systematic random sampling of households within each cluster. Due to data inconsistencies, results were only presented for 20 of the 22 departments, omitting Escuintla and Suchitepéquez. The survey used face-to-face interviews conducted from June 28 to August 3, 2022, as the sampling frame. For a comprehensive understanding of the sampling strategy, refer to the methodology document available in the data files and other resources section.

## WEIGHTING

Observations were weighted for demographic population by province.

## Data Collection

## DATES OF DATA COLLECTION

Start	End
2022-06-28	2022-08-03

## DATA COLLECTION MODE

Face-to-face [f2f]

## Questionnaires

## QUESTIONNAIRES

A link to the questionnaire has been provided in the documentation tab.

## Data Processing

## DATA EDITING

The datasets have been edited and processed for analysis by the Needs Assessment team at the Office of Emergencies and Resilience, FAO, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

## Access policy

### CONTACTS

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.
