Identification

SURVEY ID NUMBER

NGA_2017_2018_FCNSHWOS_v01_M_v01_A_ESS

TITLE

Food consumption and nutritional status of health workers in Ogun state

ABBREVIATION OR ACRONYM

FCNSHW NGA 2017-2018

COUNTRY

Name	Country code
Nigeria	NGA

STUDY TYPE

Individual Food Consumption/Dietary Survey [hh/ifcs]

ABSTRACT

Nutrient intake and food consumption have been found to be associated with health status, including malnutrition and metabolic diseases in adults. Therefore, the study aimed to provide information on the nutrient intake status and its association with body composition and health status of the respondents.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals

Scope

NOTES

The survey collected information on:

- SUBJECTS: information on the participants such as age, sex and geographical location
- CONSUMPTION: information on all foods consumed by each participant in each survey day, including quantities and nutrient values

Coverage

GEOGRAPHIC COVERAGE

Sub-national coverage, both rural and urban areas.

UNIVERSE

The population group covered in the dataset was adults 20-58 years old.

Producers and sponsors

PRIMARY INVESTIGATORS

Name
Federal University of Agriculture (FUNAAB), Abeokuta

Sampling

SAMPLING PROCEDURE

Workers from all departments under clinical services in hospitals were eligible for the participant selection procedure. However, only health workers who were permanent workers, have worked for more than two years, and gave consent to participate in the study were recruited. To estimate the correct proportion of each health profession to be included in the study, the total number of work force for each health profession in the state was requested and obtained.

WEIGHTING

No survey weights were used in this survey.

Data collection

DATES OF DATA COLLECTION

Start	End
2017-10-01	2018-02-23

DATA COLLECTION MODE

Face-to-face [f2f]

DATA COLLECTION NOTES

For data collection, the multiple-pass 24-hour dietary recall method was used, covering both weekdays and weekends. A repeated recall was done for all subjects after an average time of 4 days.

CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

CITATION REQUIREMENTS
