

# India - Diet and Nutritional Status of Rural Population, Prevalence of Hypertension and Diabetes among Adults, and Infant and Young Child Feeding Practices

**Indian Council of Medical Research (ICMR), National Institute of Nutrition of India**

Report generated on: April 22, 2026

Visit our data catalog at: <https://microdata.fao.org/index.php>

## Identification

### SURVEY ID NUMBER

IND\_2009\_2012\_DNSRPPHDAIYCFP\_v01\_M\_v01\_A\_ESS

### TITLE

Diet and Nutritional Status of Rural Population, Prevalence of Hypertension and Diabetes among Adults, and Infant and Young Child Feeding Practices

### COUNTRY

Name	Country code
India	IND

### STUDY TYPE

Individual Food Consumption/Dietary Survey [hh/ifcs]

### ABSTRACT

The Indian Council of Medical Research (ICMR, भारतीय चिकित्सा अनुसंधान परिषद) established the National Nutrition Monitoring Bureau (NNMB) in 1972 in the States of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Maharashtra, Gujarat, Madhya Pradesh, Orissa, West Bengal and Uttar Pradesh. The NNMB has been carrying out repeat surveys in both rural and tribal areas, by visiting the same villages about every 10 years. The general objective of this survey was to assess the current diet and nutritional status and time trends among rural population in all 10 NNMB States.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Individuals

## Scope

### NOTES

The survey collected information on:

- SUBJECTS: information on the participants such as age, sex and geographical location
- CONSUMPTION: information on all foods consumed by each participant in each survey day, including quantities and nutrient values

## Coverage

### GEOGRAPHIC COVERAGE

National coverage, only rural areas

### UNIVERSE

General population was covered in the survey.

## Producers and sponsors

### PRIMARY INVESTIGATORS

Name
Indian Council of Medical Research (ICMR, भारतीय चिकित्सा अनुसंधान परिषद), National Institute of Nutrition of India (एन.आई.ओ.एन., राष्ट्रीय पोषण संस्थान)

## Sampling

### SAMPLING PROCEDURE

The survey was a cross-sectional community-based survey, carried out in 10 States of India, and it employed a multi-stage probability sampling procedure.

### WEIGHTING

No surveys weights were used in this survey.

## Data collection

### DATES OF DATA COLLECTION

Start	End
2009-02-23	2012-12-21

### DATA COLLECTION MODE

Face-to-face [f2f]

### DATA COLLECTION NOTES

Individual 24-hour quantitative dietary recalls were collected from all survey respondents, covering both weekdays and weekends. No repeated dietary recalls were collected. A single respondent provided information for themselves and every other household member (e.g. the person responsible for cooking). A parent or other guardian was a proxy respondent for preschool children aged under 7 or for participants with communication disorders (e.g., hearing impairment, intellectual disability).

## Access policy

### CONTACTS

Name	Affiliation	Email
Food and Nutrition Division	Food and Agriculture Organization of the United Nations	fao-who-gift@fao.org

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.

### CITATION REQUIREMENTS

Diet and Nutritional Status of Rural Population, Prevalence of Hypertension and Diabetes among Adults, and Infant and Young child feeding practices, 2009-2012; Indian Council of Medical Research, National Institute of Nutrition, Hyderabad. Harmonized for the Global Dietary Database.
